University of the Future

ENROLL NOW & SAVE!!!*

The fUNiverse Difference

Unemployment and poverty are at an all time high...

The working poor as a percentage of the population are sky-rocketing...

The top career paths are available only to the genetically and politically superior elite and the DNA-modified...

What does YOUR future hold?

Get the leading edge with fUNiverse – the University of the Future!

The fUNiverse Qualifications

What do we offer to alter your destiny?

- A top-notch artificial intelligence titanium nervous system implant with loadable software, which will turn you into an instant expert in any one or more of the following disciplines: Medicine, Law, Arts, Science, Finance and much, much more.
- A DNA modification procedure which is guaranteed to pass the screening tests of the top Fortune 100 corporations in the world, your future employers and any licensed social status clubs you may wish to join upon 'graduation.'
- A complimentary extreme makeover to complete your career transformation, performed whilst you are still under anesthesia for the receipt of your nervous system implant.

The fUNiverse Experience

We offer state of the art virtual reality equipment and android facilities to simulate an authentic university campus experience for you, the client. Our campus simulators have versatile settings including:

- Vintage, realistic lectures of extreme length and boredom, which you can wag for an added adrenalin rush.
- Toilets with clever and ridiculous graffiti to inspire and enrage you.
- Life-like androids resembling hot and sexy fellow 'students' for you to date.
- Bohemian pubs with an endless supply of beer and bad food to capture that authentic atmosphere.
- Adjustable stress settings to give you a sense of education achievement that closely resembles the real thing.

*Enrolments are now open for the 3052 academic year.

Please note that the base fee of \$599,999.99 includes only a blank nervous system implant.

Discipline software upload and the campus simulation service incur extra charges.

Fees vary in accordance with personal settings.

Comprehensive physiological and psychological examinations must be passed by all prospective candidates.

Implanting procedure may result in paralysis or death.
