Introduction
Welcome to FIT3066, Information technology strategy and management. This 6 point unit is a core Level 3 unit in the Information Systems major of the BITS. It is also suitable for study by students in other BITS majors. The unit aims to introduce the basic concepts and issues in IT management and strategy, and explore some topics of current concern to IT managers. The unit also tried to expose students to the realities of IT management, by requiring them to participate in case studies of IT management issues.

Unit synopsis

ASCED Discipline Group classification: 020399 Information systems not elsewhere classified

This unit provides students with a detailed understanding of key topics in information systems strategy and management, and with the skills and capacity to critically analyze IS management issues.

Topics:
Management of IT directions including outsourcing, systems provisioning, etc. Management and planning of IT support for business strategies IT strategic planning IT risk management IT project failures IT infrastructure
Learning outcomes

Knowledge and Understanding

At the completion of this unit students will have a theoretical and conceptual understanding of:

- basic concepts of strategy and management relevant to the use of IT in organizations
- the nature and role of the IT/IS infrastructure within organizations
- the various roles played by different types of IS within organizations
- the types of management and organizational risks commonly faced by IT managers
- the potential for failure inherent in applying IT to the solution of organizational problems
- issues in the management of IS/IT economics, information resources, information systems development, information security and the planning of IT-enabled strategies
- issues in the management of risk in IT projects and line activities

Attitudes, Values and Beliefs

At the conclusion of this unit, students will have developed attitudes which enable them to:

- behave in an ethical and professional manner during the planning, implementation and management of information systems
- appreciate the role and importance of management skills in the IS/IT domain
- appreciate the role and importance of planning in the management of the IS/IT function in organizations

Practical Skills

At the completion of this unit, students will have the skills to:

- participate in organizational discussions on IT/IS management and planning issues in organizations
- contribute constructive suggestions of relevance to the solution of IT/IS management and planning issues in organizations
- identify and communicate issues of concern relative to the planning and management of the IT/IS function in organizations

Relationships, Communication and TeamWork

At the completion of this unit, students will:

- understand the roles and responsibilities of IT/IS managers within the broader management framework in organizations
- appreciate the contribution that a well-managed IT/IS function can make to an organization

Workload

Workload commitments for this unit are:

- one 2-hour lecture
- one 1-hour tutorial
- at least 3 hours per week of reading, preparation time and assignment work for each contact hour
Unit relationships

Prerequisites
Before attempting this unit you must have satisfactorily completed
FIT1003 or CSE1205 or IMS1002 or IMS2805 or FIT2027 or equivalent

Relationships
FIT3066 is a core unit in the Information Systems major of the BITS.
Before attempting this unit you must have satisfactorily completed
FIT1003 or CSE1205 or IMS1002 or IMS2805 or FIT2027 or equivalent
You may not study this unit and
IMS3002, GCO3816 (Translation for IMS3002)

Continuous improvement
Monash is committed to ‘Excellence in education’ (Monash Directions 2025 - http://www.monash.edu.au/about/monash-directions/directions.html) and strives for the highest possible quality in teaching and learning.

To monitor how successful we are in providing quality teaching and learning Monash regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through Unit Evaluation Surveys. The University’s Unit Evaluation policy (http://www.policy.monash.edu/policy-bank/academic/education/quality/unit-evaluation-policy.html) requires that every unit offered is evaluated each year. Students are strongly encouraged to complete the surveys as they are an important avenue for students to “have their say”. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

Faculties have the option of administering the Unit Evaluation survey online through the my.monash portal or in class. Lecturers will inform students of the method being used for this unit towards the end of the semester.

Student Evaluations
If you wish to view how previous students rated this unit, please go to http://www.adm.monash.edu.au/cheq/evaluations/unit-evaluations/

Unit staff - contact details

Unit leader
Saadat M. Alhashmi

Other tutors to be advised
Saadat M. Alhashmi

Teaching and learning method

Lectures will be used to introduce key themes and highlight the main points of interest within each theme. Tutorials will be used to discuss the application of theory in practical situations. Case studies of IT management practice will be used as the basis for discussion of issues. Students will be expected to carry out their own case study analyses of organizations and present the findings as the basis for discussions in class. Students will be required to make use of reference material to provide examples of management issues and current practices.

Tutorial allocation

On-campus students should register for tutorials using Allocate+

Communication, participation and feedback

Monash aims to provide a learning environment in which students receive a range of ongoing feedback throughout their studies. You will receive feedback on your work and progress in this unit. This may take the form of group feedback, individual feedback, peer feedback, self-comparison, verbal and written feedback, discussions (on line and in class) as well as more formal feedback related to assignment marks and grades. You are encouraged to draw on a variety of feedback to enhance your learning.

It is essential that you take action immediately if you realise that you have a problem that is affecting your study. Semesters are short, so we can help you best if you let us know as soon as problems arise. Regardless of whether the problem is related directly to your progress in the unit, if it is likely to interfere with your progress you should discuss it with your lecturer or a Community Service counsellor as soon as possible.

**Unit Resources**

**Prescribed text(s) and readings**

No required textbook

**Recommended text(s) and readings**

**Equipment and consumables required or provided**

Students will need access to:

- a personal computer with Windows XP
- the internet via dial-up connection or preferably by broadband
- a printer for assignments
**Study resources**

Study resources we will provide for your study are:

Weekly detailed lecture notes outlining the learning objectives, discussion of the content, required readings and exercises; Weekly tutorial or laboratory tasks and exercises with some sample solutions; Assignment specifications and some sample solutions; Sample examination questions and solutions; Access to past examination papers; This Unit Guide outlining the administrative information for the unit; The unit web site on MUSO, where resources outlined above will be made available.

**Library access**

The Monash University Library site contains details about borrowing rights and catalogue searching. To learn more about the library and the various resources available, please go to [http://www.lib.monash.edu.au](http://www.lib.monash.edu.au).

The Educational Library and Media Resources (LMR) is also a very resourceful place to visit at [http://www.education.monash.edu.au/library/](http://www.education.monash.edu.au/library/)

**Monash University Studies Online (MUSO)**

All unit and lecture materials are available through MUSO (Monash University Studies Online). Blackboard is the primary application used to deliver your unit resources. Some units will be piloted in Moodle. If your unit is piloted in Moodle, you will see a link from your Blackboard unit to Moodle ([http://moodle.monash.edu.au](http://moodle.monash.edu.au)) and can bookmark this link to access directly. In Moodle, from the Faculty of Information Technology category, click on the link for your unit.

You can access MUSO and Blackboard via the portal: [http://my.monash.edu.au](http://my.monash.edu.au)

Click on the Study and enrolment tab, then Blackboard under the MUSO learning systems.

In order for your Blackboard unit(s) to function correctly, your computer needs to be correctly configured.

For example:

- Blackboard supported browser
- Supported Java runtime environment

For more information, please visit: [http://www.monash.edu.au/muso/support/students/downloadables-student.html](http://www.monash.edu.au/muso/support/students/downloadables-student.html)

You can contact the MUSO Support by phone : (+61 3) 9903 1268

For further contact information including operational hours, please visit: [http://www.monash.edu.au/muso/support/students/contact.html](http://www.monash.edu.au/muso/support/students/contact.html)

Further information can be obtained from the MUSO support site: [http://www.monash.edu.au/muso/support/index.html](http://www.monash.edu.au/muso/support/index.html)

**Assessment**
Unit assessment policy

To pass this unit, a student must obtain:

- 40% or more in the unit’s examination and
- 40% or more in the unit’s non-examination assessment and
- an overall unit mark of 50% or more

If a student does not achieve 40% or more in the unit examination or the unit non-examination assessment then a mark of no greater than 44-N will be recorded for the unit.

Assignment tasks

- **Assignment Task**
  
  **Title**: Assignment 1
  
  **Description**:
  
  Specific tasks will be allocated to students when the assignment is handed out in week 2 of semester
  
  **Weighting**: 15%
  
  **Criteria for assessment**:
  
  Criteria for assessment will be supplied when the assignment is handed out in week 2 of semester
  
  **Due date**: Week 5 during tutorial

- **Assignment Task**
  
  **Title**: Assignment 2
  
  **Description**:
  
  Details of the assignment tasks will be included in the assignment specification which will be handed out in week 2 of semester
  
  **Weighting**: 15%
  
  **Criteria for assessment**:
  
  Criteria for assessment will be supplied when the assignment is handed out during semester
  
  **Due date**: Date for submission will vary from student to student; details for each student will be arranged in tutorial classes

- **Assignment Task**
  
  **Title**: Assignment 3
  
  **Description**:
  
  Details of the assignment tasks will be included in the assignment specification which will be handed out in week 5 of semester
Weighting: 20%

Criteria for assessment:
Criteria for assessment will be supplied when the assignment is handed out during semester

Due date: Week 12 during tutorial

Examinations

• Examination 1

Weighting: 50%

Length: 3 hours

Type (open/closed book): Closed book

Remarks (optional - leave blank for none):
Final examination held during formal Semester 1 examination period

Assignment submission

Assignments will be submitted to your tutor.

Assignment coversheets

All submitted assignments must have an appropriate assignment cover sheet downloaded from the faculty web site via the "Student assignment coversheets" (http://infotech.monash.edu.au/resources/student/assignments/)

University and Faculty policy on assessment

Due dates and extensions

The due dates for the submission of assignments are given in the previous section. Please make every effort to submit work by the due dates. It is your responsibility to structure your study program around assignment deadlines, family, work and other commitments. Factors such as normal work pressures, vacations, etc. are seldom regarded as appropriate reasons for granting extensions. Students are advised to NOT assume that granting of an extension is a matter of course.

Requests for extensions must be made to the unit lecturer at your campus at least two days before the due date. You will be asked to forward original medical certificates in cases of illness, and may be asked to provide other forms of documentation where necessary. A copy of the email or other written communication of an extension must be attached to the assignment submission.

Late assignment

Assignments received after the due date will be subject to a penalty of 5% per day, including weekends. Assignments received later than one week (seven days) after the due date will not normally be accepted. In some cases, this period may be shorter if there is a need to release sample solutions.
FIT3066 Information technology strategy and management - Semester 1, 2009

This policy is strict because comments or guidance will be given on assignments as they are returned, and sample solutions may also be published and distributed, after assignment marking or with the returned assignment.

**Return dates**

Students can expect assignments to be returned within two weeks of the submission date or after receipt, whichever is later.

Assessment for the unit as a whole is in accordance with the provisions of the Monash University Education Policy at [http://www.policy.monash.edu/policy-bank/academic/education/assessment/](http://www.policy.monash.edu/policy-bank/academic/education/assessment/)

We will aim to have assignment results made available to you within two weeks after assignment receipt.

**Plagiarism, cheating and collusion**

Plagiarism and cheating are regarded as very serious offences. In cases where cheating has been confirmed, students have been severely penalised, from losing all marks for an assignment, to facing disciplinary action at the Faculty level. While we would wish that all our students adhere to sound ethical conduct and honesty, I will ask you to acquaint yourself with the University Plagiarism policy and procedure [http://www.policy.monash.edu/policy-bank/academic/education/conduct/plagiarism-procedures.html](http://www.policy.monash.edu/policy-bank/academic/education/conduct/plagiarism-procedures.html) which applies to students detected plagiarising.

In this University, cheating means seeking to obtain an unfair advantage in any examination or any other written or practical work to be submitted or completed by a student for assessment. It includes the use, or attempted use, of any means to gain an unfair advantage for any assessable work in the unit, where the means is contrary to the instructions for such work.

When you submit an individual assessment item, such as a program, a report, an essay, assignment or other piece of work, under your name you are understood to be stating that this is your own work. If a submission is identical with, or similar to, someone else's work, an assumption of cheating may arise. If you are planning on working with another student, it is acceptable to undertake research together, and discuss problems, but it is not acceptable to jointly develop or share solutions unless this is specified by your lecturer.

Intentionally providing students with your solutions to assignments is classified as "assisting to cheat" and students who do this may be subject to disciplinary action. You should take reasonable care that your solution is not accidentally or deliberately obtained by other students. For example, do not leave copies of your work in progress on the hard drives of shared computers, and do not show your work to other students. If you believe this may have happened, please be sure to contact your lecturer as soon as possible.

Cheating also includes taking into an examination any material contrary to the regulations, including any bilingual dictionary, whether or not with the intention of using it to obtain an advantage.

Plagiarism involves the false representation of another person's ideas, or findings, as your own by either copying material or paraphrasing without citing sources. It is both professional and ethical to reference clearly the ideas and information that you have used from another writer. If the source is not identified, then you have plagiarised work of the other author. Plagiarism is a form of dishonesty that is insulting to the reader and grossly unfair to your student colleagues.

**Register of counselling about plagiarism**

The university requires faculties to keep a simple and confidential register to record counselling to students about plagiarism (e.g. warnings). The register is accessible to Associate Deans Teaching (or nominees) and, where requested, students concerned have access to their own details in the register. The register is to serve as a record of
counselling about the nature of plagiarism, not as a record of allegations; and no provision of appeals in relation to
the register is necessary or applicable.

**Non-discriminatory language**

The Faculty of Information Technology is committed to the use of non-discriminatory language in all forms of
communication. Discriminatory language is that which refers in abusive terms to gender, race, age, sexual
orientation, citizenship or nationality, ethnic or language background, physical or mental ability, or political or
religious views, or which stereotypes groups in an adverse manner. This is not meant to preclude or inhibit
legitimate academic debate on any issue; however, the language used in such debate should be non-discriminatory
and sensitive to these matters. It is important to avoid the use of discriminatory language in your communications
and written work. The most common form of discriminatory language in academic work tends to be in the area of
gender inclusiveness. You are, therefore, requested to check for this and to ensure your work and communications
are non-discriminatory in all respects.

**Students with disabilities**

Students with disabilities that may disadvantage them in assessment should seek advice from one of the following
before completing assessment tasks and examinations:

- Faculty of Information Technology Student Service staff, and / or
- your Unit Coordinator, or
- Disabilities Liaison Unit

**Deferred assessment and special consideration**

Deferred assessment (not to be confused with an extension for submission of an assignment) may be granted in
cases of extenuating personal circumstances such as serious personal illness or bereavement. Information and forms
for Special Consideration and deferred assessment applications are available at
http://www.monash.edu.au/exams/special-consideration.html. Contact the Faculty's Student Services staff at your
campus for further information and advice.
