# **FIT3043 Web systems 3 - Semester 2, 2011**

Content covered in this unit, includes: Static and dynamic web pages; ASP.Net environment; HTML forms reviewed; Standard server controls; C# language; Page life cycles; Event driven programming and postback; C# basics; Objects in C#; Namespaces and core objects; State handling; Objects and structured data; Validation controls; Master pages; Themes and skins; Navigation controls; Using data sources; Reading and updating data stores; XML files as data store; Using Grids; Data binding; Configuration and optimisation; Authentication; Email and accessing file systems; Components and user controls; Code behind; .NET Assemblies; Custom Server Controls; Using Ajax; Mobile Web page development; Styling page output; and New device support.

## **Mode of Delivery**

- Berwick (ONLINE-DAY)
- Caulfield (ONLINE-DAY)
- Gippsland (ONLINE-DAY)
- Sunway (ONLINE-DAY)
- South Africa (ONLINE-DAY)

## **Contact Hours**

Online: Optional weekly helpdesk sessions  
Sunway: 2 hrs lecture/wk, 2 hrs laboratories/wk

## **Workload**

Students will need to spend 12 hours per week working on this unit. Lectures and on-campus help sessions are provided.

## **Unit Relationships**

### **Prohibitions**

CPE3016, IMS2906

### **Prerequisites**

One of [FIT1002](#), BUS1060, IMS1906 or CSE1202

## **Chief Examiner**

**Dr Des Casey**

## **Campus Lecturer**

## **Berwick**

**Des Casey**

Contact hours: In scheduled help sessions, or email for appointment

## **Caulfield**

**Des Casey**

Contact hours: In scheduled help sessions, or email for appointment

## **Gippsland**

**Des Casey**

Contact hours: In scheduled help sessions, or email for appointment

## **South Africa**

**Gregory Gregoriou**

Contact hours: In scheduled help sessions, or email for appointment

## **Sunway**

**Thomas O'Daniel**

Contact hours: In scheduled help sessions, or email for appointment

# Academic Overview

## Learning Objectives

At the completion of this unit students will have:

- an understanding of web environments and their components;
- an understanding of the principles of object oriented Internet applications development;
- the knowledge and skills to design and implement web based applications, using a server side applications development environment;
- the knowledge and skills to design and implement mobile applications;
- the knowledge and skills to implement data stores in web based applications;
- a professional attitude towards the development of web based information systems.

## Graduate Attributes

Monash prepares its graduates to be:

1. responsible and effective global citizens who:
  - a. engage in an internationalised world
  - b. exhibit cross-cultural competence
  - c. demonstrate ethical values

critical and creative scholars who:

- a. produce innovative solutions to problems
- b. apply research skills to a range of challenges
- c. communicate perceptively and effectively

## Assessment Summary

Examination (3 hours): 50%; In-semester assessment: 50%

Students must gain a satisfactory result in both the practical and exercises work and the exam to gain a pass in the unit. The examination must be sat at a Monash campus.

<b>Assessment Task</b>	<b>Value</b>	<b>Due Date</b>
Unit tasks	41%	By 21 October 2011 at latest
Multiple choice quizzes	9%	By 21 October 2011 at latest
Examination 1	50%	To be advised

## Teaching Approach

### Problem-based learning

Students are encouraged to take responsibility for organising and directing their learning with support from their supervisors.

## Academic Overview

This unit makes use of bounded task based learning, through the Walkabout u-Learning online environment.

## Feedback

### Our feedback to You

Types of feedback you can expect to receive in this unit are:

- Informal feedback on progress in labs/tutes
- Graded assignments without comments
- Quiz results
- Solutions to tutes, labs and assignments
- Other: Students receive a detailed breakdown of marks awarded for each task completed. For more detailed qualitative feedback, students see the lecturer in help sessions or other class time, or make an appointment to discuss a task.

### Your feedback to Us

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through SETU, Student Evaluation of Teacher and Unit. The University's student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash's educational strategy, and on student evaluations, see:

<http://www.monash.edu.au/about/monash-directions/directions.html>

<http://www.policy.monash.edu/policy-bank/academic/education/quality/student-evaluation-policy.html>

### Previous Student Evaluations of this unit

If you wish to view how previous students rated this unit, please go to

<https://emuapps.monash.edu.au/unitevaluations/index.jsp>

### Recommended Resources

Visual Studio 2010, will be provided to students.

## Unit Schedule

Week	Activities	Assessment
0	Register at the unit website: <a href="http://walkabout.infotech.monash.edu.au/walkabout/fit3043/index.html">http://walkabout.infotech.monash.edu.au/walkabout/fit3043/index.html</a>	No formal assessment or activities undertaken in week 0
1	Introduction to u-learning	
2	Serving static and dynamic web pages, HTTP protocol reviewed, HTML forms reviewed, Standard server controls	
3	C# basics: data types and operators, control structures, functions	
4	Objects in C#, Static class members and class relationships, Namespaces and core objects. State Handling, Objects and structured data	
5	HTML server controls, Validation controls, Master Pages, Themes and skins, Navigation controls	
6	Using data stores, ADO.NET - Manipulating data, User interaction to retrieve data, Data Source Controls	
7	Data Controls, Data Source Controls - Manipulating Data	
8	GridView - Paging, GridView - Sorting	
9	Configuration, optimisation, authentication, emails, accessing the server file system	
10	Components and user controls, Code behind, Compiled .Net Assemblies, Custom Server Controls, Ajax	
11	Web pages for mobile devices, Navigating a mobile site, List controls and data binding	
12	Validation controls, Rich Controls, Styling page output, Writing controls, New device support	Unit tasks due by 21 October 2011 Multiple choice quizzes due by 21 October 2011
	SWOT VAC	No formal assessment is undertaken SWOT VAC
	Examination period	LINK to Assessment Policy: <a href="http://policy.monash.edu.au/policy-academic/education/assessment/assessment-in-coursework-policy.h">http://policy.monash.edu.au/policy-academic/education/assessment/assessment-in-coursework-policy.h</a>

\*Unit Schedule details will be maintained and communicated to you via your MUSO (Blackboard or Moodle) learning system.

# Assessment Requirements

## Assessment Policy

To pass a unit which includes an examination as part of the assessment a student must obtain:

- 40% or more in the unit's examination, and
- 40% or more in the unit's total non-examination assessment, and
- an overall unit mark of 50% or more.

If a student does not achieve 40% or more in the unit examination or the unit non-examination total assessment, and the total mark for the unit is greater than 50% then a mark of no greater than 49-N will be recorded for the unit

## Assessment Tasks

### Participation

- **Assessment task 1**

**Title:**

Unit tasks

**Description:**

This unit uses task based learning. Students complete a series of relatively small tasks in the course of the unit. These tasks take the place of the conventional assignments.

Each task typically requires the student to design and code a web application, using ASP.Net.

This unit gives students flexibility with their time. Students may submit tasks at any time throughout the semester. Tasks are corrected at a number of published task correction points. Students gain task feedback through correction sheets and at on-campus or online help sessions.

Each task comes with a detailed assessment spreadsheet showing the criteria for assessment. These criteria are provided on the unit website for each task at the start of the semester.

FIT3043 students complete the first 8 of the 9 tasks provided.

**Weighting:**

41%

**Criteria for assessment:**

How well the solutions provided for tasks meets the required specifications.

How well the code is written.

**Due date:**

By 21 October 2011 at latest

- **Assessment task 2**

**Title:**

Multiple choice quizzes

**Description:**

Students complete a series of timed online quizzes during the semester. Each has 10 questions and are multiple choice. These test the material learned in the tasks. They are marked as the student completes the quiz and the student is then informed of the result.

The quizzes may be completed at any time throughout the semester.

FIT3043 students complete the first 8 of the 9 quizzes provided.

**Weighting:**

9%

**Criteria for assessment:**

Correct answers to questions (demonstrates understanding of the material learned).

**Due date:**

By 21 October 2011 at latest

## Examinations

- **Examination 1**

**Weighting:**

50%

**Length:**

3 hours

**Type (open/closed book):**

Closed book

**Electronic devices allowed in the exam:**

None

**Remarks:**

FIT3043 students do not need to attempt questions relating to mobile device applications.

## Assignment submission

It is a University requirement

(<http://www.policy.monash.edu/policy-bank/academic/education/conduct/plagiarism-procedures.html>) for students to submit an assignment coversheet for each assessment item. Faculty Assignment coversheets can be found at <http://www.infotech.monash.edu.au/resources/student/forms/>. Please check with your Lecturer on the submission method for your assignment coversheet (e.g. attach a file to the online assignment submission, hand-in a hard copy, or use an online quiz).

## Extensions and penalties

Submission must be made by the due date otherwise penalties will be enforced.

You must negotiate any extensions formally with your campus unit leader via the in-semester special consideration process:

<http://www.infotech.monash.edu.au/resources/student/equity/special-consideration.html>.

## **Returning assignments**

Students can expect assignments to be returned within two weeks of the submission date or after receipt, whichever is later

## Other Information

### Policies

Monash has educational policies, procedures and guidelines, which are designed to ensure that staff and students are aware of the University's academic standards, and to provide advice on how they might uphold them. You can find Monash's Education Policies at:

<http://policy.monash.edu.au/policy-bank/academic/education/index.html>

Key educational policies include:

- Plagiarism  
(<http://www.policy.monash.edu/policy-bank/academic/education/conduct/plagiarism-policy.html>)
- Assessment  
(<http://www.policy.monash.edu/policy-bank/academic/education/assessment/assessment-in-coursework-p>)
- Special Consideration  
(<http://www.policy.monash.edu/policy-bank/academic/education/assessment/special-consideration-policy.h>)
- Grading Scale  
(<http://www.policy.monash.edu/policy-bank/academic/education/assessment/grading-scale-policy.html>)
- Discipline: Student Policy  
(<http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-discipline-policy.html>)
- Academic Calendar and Semesters (<http://www.monash.edu.au/students/key-dates/>);
- Orientation and Transition (<http://www.infotech.monash.edu.au/resources/student/orientation/>);  
and
- Academic and Administrative Complaints and Grievances Policy  
(<http://www.policy.monash.edu/policy-bank/academic/education/management/complaints-grievance-policy>)
- Codes of Practice for Teaching and Learning  
(<http://www.policy.monash.edu.au/policy-bank/academic/education/conduct/suppdocs/code-of-practice-tea>)

### Student services

The University provides many different kinds of support services for you. Contact your tutor if you need advice and see the range of services available at [www.monash.edu.au/students](http://www.monash.edu.au/students). The Monash University Library provides a range of services and resources that enable you to save time and be more effective in your learning and research. Go to <http://www.lib.monash.edu.au> or the library tab in my.monash portal for more information. Students who have a disability or medical condition are welcome to contact the Disability Liaison Unit to discuss academic support services. Disability Liaison Officers (DLOs) visit all Victorian campuses on a regular basis

- Website: <http://adm.monash.edu/sss/equity-diversity/disability-liaison/index.html>;
- Telephone: 03 9905 5704 to book an appointment with a DLO;
- Email: [dlu@monash.edu](mailto:dlu@monash.edu)
- Drop In: Equity and Diversity Centre, Level 1 Gallery Building (Building 55), Monash University, Clayton Campus.
