FIT5090 Social informatics - Semester 1, 2012

This unit provides students with a critical understanding of the impact of information technology (IT) within contemporary social relations. Using case studies drawn from different social spheres, the unit explores the ways in which the diffusion of IT has reshaped thinking and practice concerning social collaboration, the production of knowledge and community building. Particular attention is paid to the emerging field of community informatics, and the implications that this field holds for the work of information and knowledge management professionals.

Mode of Delivery

- Caulfield (Day)
- Caulfield (Off-campus)
- South Africa (Day)

Contact Hours

2 hrs lectures/wk, 2 hrs tutorial/wk

Workload

For FIT5090 on campus students, weekly workload commitments are:

- two-hour lecture and
- two-hour tutorial (requiring advance preparation)
- a minimum of 3-4 hours of personal study per one hour of contact time inorder to satisfy the reading and assignment expectations.
- You will need to allocate up to 5 hours per week in some weeks, for use of a computer, including time for newsgroups/discussion groups.

Off-campus students generally do not attend lecture and tutorial sessions (although they are welcome). However, you should plan to spend equivalent time working through the relevant resources and participating in discussion groups each week, as well as regular chatroom sessions. Audio recordings of lectures are accessible from the unit MUSO site.

Academic Overview

Outcomes

At the completion of this unit students will be able to:

- understand the nature and operation of information communities within contemporary society;
- have an understanding of community informatics as an emerging discipline and professional practice;
- be familiar with contemporary debates concerning the social impact of information technology use;
- gain understanding of the collaborative behaviours and interdependencies which contribute to notions of community;
- demonstrate the ability to analyse and critique cases from the information industry.

Graduate Attributes

Monash prepares its graduates to be:

1. responsible and effective global citizens who:
   a. engage in an internationalised world
   b. exhibit cross-cultural competence
   c. demonstrate ethical values

   critical and creative scholars who:
   a. produce innovative solutions to problems
   b. apply research skills to a range of challenges
   c. communicate perceptively and effectively

Teaching Approach

Lecture and tutorials or problem classes

The teaching and learning approach provides facilitated learning, practical exploration and peer learning, equipping you with the ability to apply skills upon completion.
Academic Overview

Feedback

Our feedback to You

Types of feedback you can expect to receive in this unit are:

- Informal feedback on progress in labs/tutes
- Graded assignments with comments

Your feedback to Us

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through SETU, Student Evaluation of Teacher and Unit. The University's student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash's educational strategy, and on student evaluations, see:
http://www.policy.monash.edu/policy-bank/academic/education/quality/student-evaluation-policy.html

Assessment Tasks

Participation

• Assessment task 1

Title:
Assignment 1

Description:
Assignment 1 consists of 10 short reflective pieces by individual students.

For 10 successive semester weeks, starting in Week 1, you will be required to address a question posed at the end of that week’s lecture.

Your weekly answer of no less than 150 of your own words is due each Monday of the following week (Weeks 2 to 11).

Upload each of your reflective pieces to the folder for your tutorial group.

Label each piece ‘Exercise Week X’, and don’t forget to include your name.

Weighting:
5%

Criteria for assessment:
The criteria used to assess submissions are:

1. Correctness and understanding - there may be more than one "right" answer in many cases. We will look for answers that reflect understanding of the underlying principles and theories.
2. Completeness - that you have answered all parts of each question. Presentation - that you have presented your answers in a suitably formatted report style.
3. Use of evidence and argument - you are able to explain your position by using logical argument drawing on the theory presented in the unit.

Specific tasks and marking criteria will be distributed at the appropriate time during the semester.

Due date:
Each Monday of weeks 2-11

• Assessment task 2

Title:
Assignment 2

Description:
Individual students will write a critical assessment of a text relevant to the field of social informatics. In the case of on-campus students, this exercise will include a class
presentation worth 10%, while off campus students will instead supply relevant materials to support a presentation.

Assignment submission

It is a University requirement (http://www.policy.monash.edu/policy-bank/academic/education/conduct/plagiarism-procedures.html) for students to submit an assignment coversheet for each assessment item. Faculty Assignment coversheets can be found at http://www.infotech.monash.edu.au/resources/student/forms/. Please check with your Lecturer on the submission method for your assignment coversheet (e.g. attach a file to the online assignment submission, hand-in a hard copy, or use an online quiz).

Online submission

If Electronic Submission has been approved for your unit, please submit your work via the VLE site for this unit, which you can access via links in the my.monash portal.

Extensions and penalties

Submission must be made by the due date otherwise penalties will be enforced.

Returning assignments

Students can expect assignments to be returned within two weeks of the submission date or after receipt, whichever is later.
