FIT2055 Web content management - Summer semester, 2012

This unit covers principles and practice of the emergent field of web content management. It focuses on developing organisation systems for websites or intranets that are responsive to business imperatives and user needs, and that facilitate effective retrieval of information. Particular emphasis is given to developing practical skills in these areas and to applying a range of popular tools, techniques, software commonly used for web content management.

Contact Hours

2 hrs lectures/wk, 2 hrs laboratories/wk

Workload

Students will be expected to spend a total of 24 hours per week during semester on this unit as follows:

Lectures: 4 hours of lectures

Tutorial/Lab Sessions: 4 hours of laboratories, which may require advance preparation

A minimum of 16 hours of personal study in order to satisfy the reading and assignment expectations.

Unit Relationships

Prohibitions

FIT2080

Chief Examiner

Mr Thomas O'Daniel

Campus Lecturer

Sunway

Anushia Inthiran. NOTE: Simon Egerton is Chief Examiner for Summer 2012

Consultation hours: TBA

Academic Overview

Outcomes

At the completion of this unit students will have -

A knowledge and understanding of:

- the principles and practice of the emergent field of web content management;
- the relative roles and responsibilities of webmasters and other professionals in a web or intranet development project;
- user information needs and information seeking behaviours within the web environment.
- information retrieval principles (eg precision, recall, relevance, specificity) and their application in the web environment;
- issues and challenges in organising information for effective retrieval on web sites and intranets;
- organisation systems, schemes and structures for web/ intranet content management, and how these organisation systems are represented in the key components of web information architecture;
- the application of information design and usability principles to labelling, navigation and search functions on a web site or intranet;
- commonalities and differences in information architectures in public web, intranet and extranet environments;
- phases and processes in planning and implementing a web content management project or program;
- tools, techniques, and software that are commonly used for web content management.

Developed attitudes that enable them to appreciate:

- the range of specialist expertise amongst professionals involved in a web site/ intranet development project, and the importance of effective communication and collaboration amongst these groups;
- the centrality of the user in defining an information architecture for a web site or intranet and the difficulties users experience in finding relevant information on the web;
- that business imperatives and user requirements are the key drivers of web content management, but that reconciling the two may be no easy task;
- that findability is a critical factor in determining web usability, and the role effective organisation systems play in this process;
- that effective organisation systems tend to be largely invisible to web or intranet users.
- their own growing confidence in their information retrieval skills.

Developed skills in:

- conducting a business requirements analysis and a user needs analysis, in connection with developing an information architecture for a web site or intranet;
- developing an effective information architecture for a web site or intranet, taking into consideration unique business and user information requirements, and information retrieval, information design and usability principles and guidelines;
- constructing a taxonomy; applying facet analysis to thesaurus construction; and designing a metadata schema for a web site or intranet;
- planning, designing, documenting, testing and evaluating labelling, navigation and search systems for a web site or intranet;

Academic Overview

- utilising a range of tools and techniques (eg blueprints, wireframes, card sorting, affinity diagrams, content maps, personas), and software in the process of developing the information architecture for a web site or intranet;
- undertaking usability/findability testing of users using prototypes and a range of evaluation techniques and interpreting findings;
- evaluating information architectures, and software products for web content management.

Graduate Attributes

Monash prepares its graduates to be:

1. responsible and effective global citizens who:

- a. engage in an internationalised world
- b. exhibit cross-cultural competence
- c. demonstrate ethical values

critical and creative scholars who:

- a. produce innovative solutions to problems
- b. apply research skills to a range of challenges
- c. communicate perceptively and effectively

Assessment Summary

Examination (3 hours): 50%; In-semester assessment: 50%

Assessment Task	Value	Due Date
Assignment 1 - Web Content Management Practical	10%	2 December 2012, Week 2; CMS Demonstrations in the lab session
Assignment 2 - Content Inventory and Taxonomy	15%	31 December 2012, Week 4
Assignment 3 - Website Experience Review	10%	7 January 2013, Week 5
Assignment 4 - Project Plan	15%	14 January 2013, Week 6
Examination 1	50%	To be advised

Teaching Approach

Lecture and tutorials or problem classes

The lecture and practical lab approach provides facilitated learning, practical exploration and peer learning.

Feedback

Our feedback to You

Types of feedback you can expect to receive in this unit are:

- Informal feedback on progress in labs/tutes
- Graded assignments with comments
- Interviews

Your feedback to Us

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through SETU, Student Evaluation of Teacher and Unit. The University's student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash's educational strategy, and on student evaluations, see:

<http://www.monash.edu.au/about/monash-directions/directions.html>

<http://www.policy.monash.edu/policy-bank/academic/education/quality/student-evaluation-policy.html>

Previous Student Evaluations of this unit

This unit was completely revised in 2011 to make it more intellectually stimulating and increase its practical value. For Semester 2, 2012 we have adopted new software for our lab practicals and assignments that is a much better concrete implementation of the abstract principles covered in the lectures and study guides, which will strengthen the link between theory and practice.

If you wish to view how previous students rated this unit, please go to

<https://emuapps.monash.edu.au/unitevaluations/index.jsp>

Required Resources

Please check with your lecturer before purchasing any Required Resources. Limited copies of prescribed texts are available for you to borrow in the library, and prescribed software is available in student labs.

Access to the unit website.

Access to the computer labs or computing resources in the standard configuration.

Students will use the following software during the course of this unit. This software will be provided in the labs and is freely available from the following web sites:

- Hippo CMS - <http://www.onehippo.com/en/products/cms/try>
- Pencil - <http://pencil.evolus.vn/>
- FreeMind - <http://www.edrawsoft.com/freemind.php>
- SessionTester - <http://sessiontester.openqa.org/download.html>
- StickySorter - <http://www.downloadcrew.com/article/23100-stickysorter> =or=
<http://www.microsoft.com/portugal/educacao/suiteaprendizagem/stickySorter.html> (click Instalar)

Unit Schedule

Week	Activities	Assessment
0		No formal assessment or activities are undertaken in week 0
1	Overview; Web Content: Creation and management	
2	Information literacy: Metadata; Information literacy: Information retrieval principles	Assignment 1 - Web Content Management Practical due 2 December 2012; CMS Demonstrations in the lab session
3	Web content: Tagging, search-engine optimisation; Information literacy: Controlled vocabularies	
4	User Centred Design: Controlled vocabularies; User Centred Design: Evaluation techniques	Assignment 2 - Content Inventory and Taxonomy due 31 December 2012
5	User Centred Design: Accessibility; User Centred Design: Project management	Assignment 3 - Website Experience Review due 7 January 2013
6	Enterprise information management: Microsoft sharepoint; Professional and policy issues	Assignment 4 - Project Plan due 14 January 2013

Assessment Tasks

Participation

• Assessment task 1

Title:

Assignment 1 - Web Content Management Practical

Description:

This assignment involves demonstrating an understanding of CMS roles and workflow. Students will complete the assignment as individuals or in pairs.

Weighting:

10%

Criteria for assessment:

Demonstrating knowledge and capability of:

1. Assigning user privileges (role: Administrator)
2. Creating a document template (role: Information Architect)
3. Adding content (role: Author)
4. Approving and publishing (role: Editor)

Demonstrations will be done in a lab tutorial session. Individual contribution to group work will be assessed by interview at that time.

Due date:

2 December 2012, Week 2; CMS Demonstrations in the lab session

• Assessment task 2

Title:

Assignment 2 - Content Inventory and Taxonomy

Description:

This assignment involves doing two key activities in the development of an Information Architecture. Students will complete the assignment as individuals or in pairs.

Weighting:

15%

Criteria for assessment:

1. Are all of the assignment specifications addressed by the student?
2. Are the key concepts understood?
3. Are all the relevant sources of knowledge used and understood?
4. Are there elements that are special or original, i.e., is there more than just the basic requirements?

Assessment Requirements

The "Project approach" section of the submission (detailed in the assignment specification that will be distributed) will be used to assess individual contribution to group work.

Due date:

31 December 2012, Week 4

• Assessment task 3

Title:

Assignment 3 - Website Experience Review

Description:

This assignment involves a critical evaluation of website usability and search capabilities.

Weighting:

10%

Criteria for assessment:

1. Are all of the assignment specifications addressed by the student?
2. Are the key concepts understood?
3. Are all the relevant sources of knowledge used and understood?
4. Are there elements that are special or original, i.e., is there more than just the basic requirements?
5. Have up-to-date sources of information been used, and acknowledged fully and correctly?

Due date:

7 January 2013, Week 5

• Assessment task 4

Title:

Assignment 4 - Project Plan

Description:

This assignment is to formulate a preliminary, informal plan for a web content management implementation project that emphasises tasks to be achieved, people to be involved in each task, the sequence of tasks, and quality criteria.

Weighting:

15%

Criteria for assessment:

1. Granularity and completeness of the task list
2. Concurrency of tasks
3. Identification of appropriate people and skills for each task
4. Statement of goals or acceptance criteria for each task

Due date:

14 January 2013, Week 6

Examinations

• Examination 1

Weighting:

50%

Length:

3 hours

Type (open/closed book):

Assessment Requirements

Closed book

Electronic devices allowed in the exam:

None

Assignment submission

It is a University requirement

(<http://www.policy.monash.edu/policy-bank/academic/education/conduct/plagiarism-procedures.html>) for students to submit an assignment coversheet for each assessment item. Faculty Assignment coversheets can be found at <http://www.infotech.monash.edu.au/resources/student/forms/>. Please check with your Lecturer on the submission method for your assignment coversheet (e.g. attach a file to the online assignment submission, hand-in a hard copy, or use an online quiz).

Online submission

If Electronic Submission has been approved for your unit, please submit your work via the learning system for this unit, which you can access via links in the my.monash portal.

Extensions and penalties

Submission must be made by the due date otherwise penalties will be enforced.

You must negotiate any extensions formally with your campus unit leader via the in-semester special consideration process:

<http://www.infotech.monash.edu.au/resources/student/equity/special-consideration.html>.

Returning assignments

Students can expect assignments to be returned within two weeks of the submission date or after receipt, whichever is later.

Other Information

Policies

Monash has educational policies, procedures and guidelines, which are designed to ensure that staff and students are aware of the University's academic standards, and to provide advice on how they might uphold them. You can find Monash's Education Policies at:

<http://policy.monash.edu.au/policy-bank/academic/education/index.html>

Key educational policies include:

- Plagiarism
(<http://www.policy.monash.edu/policy-bank/academic/education/conduct/plagiarism-policy.html>)
- Assessment
(<http://www.policy.monash.edu/policy-bank/academic/education/assessment/assessment-in-coursework-p>)
- Special Consideration
(<http://www.policy.monash.edu/policy-bank/academic/education/assessment/special-consideration-policy.h>)
- Grading Scale
(<http://www.policy.monash.edu/policy-bank/academic/education/assessment/grading-scale-policy.html>)
- Discipline: Student Policy
(<http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-discipline-policy.html>)
- Academic Calendar and Semesters (<http://www.monash.edu.au/students/key-dates/>);
- Orientation and Transition (<http://www.infotech.monash.edu.au/resources/student/orientation/>);
and
- Academic and Administrative Complaints and Grievances Policy
(<http://www.policy.monash.edu/policy-bank/academic/education/management/complaints-grievance-policy>)
- Codes of Practice for Teaching and Learning
(<http://www.policy.monash.edu.au/policy-bank/academic/education/conduct/suppdocs/code-of-practice-tea>)

Student services

The University provides many different kinds of support services for you. Contact your tutor if you need advice and see the range of services available at www.monash.edu.au/students. For Sunway see <http://www.monash.edu.my/Student-services>, and for South Africa see <http://www.monash.ac.za/current/>

The Monash University Library provides a range of services and resources that enable you to save time and be more effective in your learning and research. Go to <http://www.lib.monash.edu.au> or the library tab in my.monash portal for more information. At Sunway, visit the Library and Learning Commons at <http://www.lib.monash.edu.my/>. At South Africa visit <http://www.lib.monash.ac.za/>.

Academic support services may be available for students who have a disability or medical condition. Registration with the Disability Liaison Unit is required. Further information is available as follows:

- Website: <http://monash.edu/equity-diversity/disability/index.html>;
- Email: dlu@monash.edu
- Drop In: Equity and Diversity Centre, Level 1 Gallery Building (Building 55), Monash University, Clayton Campus, or Student Community Services Department, Level 2, Building 2, Monash University, Sunway Campus
- Telephone: 03 9905 5704, or contact the Student Advisor, Student Community Services at 03 55146018 at Sunway
