FIT5109 Research topic - Semester 1, 2013

This unit enables students to pursue a particular topic of research in the fields of information technology, information systems or information management. Students enrolling in this unit should have the approval of the Head of School or their nominee. Assessment comprises a research paper, project report, or equivalent.

Your feedback to Us

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through the Student Evaluation of Teaching and Units (SETU) survey. The University’s student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash’s educational strategy, see:

www.monash.edu.au/about/monash-directions and on student evaluations, see:
