### FIT3080 Intelligent systems - Semester 2, 2013

This unit includes history and philosophy of artificial intelligence; intelligent agents; problem solving and search (problem representation, heuristic search, iterative improvement, game playing); knowledge representation and reasoning (extension of material on propositional and first-order logic for artificial intelligence applications, situation calculus, planning, frames and semantic networks); expert systems overview (production systems, certainty factors); reasoning under uncertainty (belief networks compared to other approaches such as fuzzy logic); machine learning (decision trees, neural networks, genetic algorithms).

# **Mode of Delivery**

- Clayton (Day)
- Sunway (Day)

#### **Contact Hours**

2 hrs lectures/wk, 1 hr laboratory/wk

### **Workload requirements**

The expected weekly workload is 12 hours in total, including:

- 2 hour lecture
- 1 hour tutorial and
- 9 hours for personal study including programming, reading and revision.

## **Unit Relationships**

#### **Prohibitions**

CSE2309, CSE3309, DGS3691

### **Prerequisites**

FIT2004 or CSE2304

#### Chief Examiner

**Professor Ingrid Zukerman** 

### **Campus Lecturer**

FIT3080 Intelligent systems - Semester 2, 2013

# Clayton

#### Reza Haffari

Consultation hours: Tuesday 2-3pm

Ingrid Zukerman

Consultation hours: Wednesday 3-4pm

# Sunway

Simon Egerton

# **Tutors**

# Clayton

**Tatyana Shmanina** 

Jessie Phuong Thao Nghiem

### **Academic Overview**

### **Learning Outcomes**

At the completion of this unit students will have -A knowledge and understanding of:

- the historical and conceptual development of AI;
- the goals of AI and the main paradigms for achieving them including logical inference, search, nonmonotonic logics, neural network methods and Bayesian inference;
- the social and economic roles of AI;
- heuristic AI for problem solving;
- basic knowledge representation and reasoning mechanisms;
- automated planning and decision-making systems;
- probabilistic inference for reasoning under uncertainty;
- machine learning techniques and their uses;
- foundational issues for AI, including the frame problem and the Turing test;
- Al programming techniques.

#### Developed attitudes that enable them to:

- appreciate the potential and limits of the main approaches to AI;
- be ready to reason critically about claims of the effectiveness of Al programs;
- analyse problems and determine where AI techniques are applicable;
- implement AI problem-solving techniques in Lisp;
- compare AI techniques in terms of complexity, soundness and completeness.

# **Unit Schedule**

Week	Activities	Assessment
0		No formal assessment or activities are undertaken in week 0
1	Introduction	
2	Problem solving: search I	
3	Problem solving: search II	
4	Game playing and Knowledge representation: propositional logic	
5	Knowledge representation: first-order logic	
6	Planning	Assignment 1 due 2 September 2013
7	Reasoning under uncertainty: probabilistic reasoning and Bayesian networks	
8	Reasoning under uncertainty: Statistical learning	
9	Machine learning	Assignment 2 due 23 September 2013
10	Classification and regression	
11	Markov Decision Processes	
12	Reinforcement Learning	Assignment 3 due 21 October 2013
	SWOT VAC	No formal assessment is undertaken in SWOT VAC
	Examination period	LINK to Assessment Policy: http://policy.monash.edu.au/policy-bank/ academic/education/assessment/ assessment-in-coursework-policy.html

<sup>\*</sup>Unit Schedule details will be maintained and communicated to you via your learning system.

# **Assessment Summary**

Examination (3 hours): 60%; In-semester assessment: 40%

Assessment Task	Value	Due Date
Assignment 1 - Problem solving: search	15%	2 September 2013
Assignment 2 - Knowledge representation and Bayesian networks	10%	23 September 2013
Assignment 3 - Machine learning and Markov Decision Processes	15%	21 October 2013
Examination 1	60%	To be advised

# **Teaching Approach**

## Lecture and tutorials or problem classes

This teaching and learning approach provides facilitated learning, practical exploration and peer learning.

## **Assessment Requirements**

### **Assessment Policy**

Faculty Policy - Unit Assessment Hurdles

(http://www.infotech.monash.edu.au/resources/staff/edgov/policies/assessment-examinations/unit-assessment-hu

Academic Integrity - Please see the Demystifying Citing and Referencing tutorial at <a href="http://lib.monash.edu/tutorials/citing/">http://lib.monash.edu/tutorials/citing/</a>

### **Assessment Tasks**

### **Participation**

#### Assessment task 1

Title:

Assignment 1 - Problem solving: search

**Description:** 

Implement a search algorithm to solve a given problem.

Weighting:

15%

#### **Criteria for assessment:**

Students must demonstrate knowledge of the A\* algorithm and other search algorithms, and ability to implement them correctly.

Due date:

2 September 2013

#### Assessment task 2

Title:

Assignment 2 - Knowledge representation and Bayesian networks

#### **Description:**

Pen and paper questions in knowledge representation and use of Netica for Bayesian networks.

#### Weighting:

10%

#### **Criteria for assessment:**

Knowledge of the requisite material. The specific tasks and marking criteria will be distributed at the appropriate time during the semester.

#### Due date:

23 September 2013

#### Assessment task 3

Title:

Assignment 3 - Machine learning and Markov Decision Processes

#### **Description:**

Implement a program to apply machine learning techniques. The Markov Decision Process component may be pen and paper.

#### Weighting:

15%

#### **Criteria for assessment:**

Performance of the program. The specific tasks and marking criteria will be distributed at the appropriate time during the semester.

#### Due date:

21 October 2013

### **Examinations**

Examination 1

Weighting:

60%

Length:

3 hours

Type (open/closed book):

Closed book

Electronic devices allowed in the exam:

None

## **Learning resources**

### **Reading list**

#### **Recommended texts:**

- A Hodges (1992), Alan Turing: The Enigma. London: Vintage.
- P McCorduck (1979), Machines Who Think. Freeman.
- J Haugland (1985), Artificial Intelligence: The Very Idea. MIT.
- M Boden (Ed.) (1990), The Philosophy of Al. Oxford.

Monash Library Unit Reading List <a href="http://readinglists.lib.monash.edu/index.html">http://readinglists.lib.monash.edu/index.html</a>

## Feedback to you

Types of feedback you can expect to receive in this unit are:

- Informal feedback on progress in labs/tutes
- Graded assignments with comments
- Graded assignments without comments
- Solutions to tutes, labs and assignments

### **Extensions and penalties**

Submission must be made by the due date otherwise penalties will be enforced.

You must negotiate any extensions formally with your campus unit leader via the in-semester special consideration process: <a href="http://www.monash.edu.au/exams/special-consideration.html">http://www.monash.edu.au/exams/special-consideration.html</a>

### **Returning assignments**

Students can expect assignments to be returned within two weeks of the submission date or after receipt, whichever is later.

### **Assignment submission**

It is a University requirement

(http://www.policy.monash.edu/policy-bank/academic/education/conduct/plagiarism-procedures.html) for students to submit an assignment coversheet for each assessment item. Faculty Assignment coversheets can be found at <a href="http://www.infotech.monash.edu.au/resources/student/forms/">http://www.infotech.monash.edu.au/resources/student/forms/</a>. Please check with your Lecturer on the submission method for your assignment coversheet (e.g. attach a file to the online assignment submission, hand-in a hard copy, or use an online quiz). Please note that it is your responsibility to retain copies of your assessments.

#### Online submission

If Electronic Submission has been approved for your unit, please submit your work via the learning system for this unit, which you can access via links in the my.monash portal.

## **Required Resources**

Please check with your lecturer before purchasing any Required Resources. Limited copies of prescribed texts are available for you to borrow in the library, and prescribed software is available in student labs.

Software: Netica, Weka

## Prescribed text(s)

Limited copies of prescribed texts are available for you to borrow in the library.

R. Russell and P. Norvig. (2010). Artificial Intelligence: A Modern Approach. (3rd Edition) Prentice Hall.

### Other Information

#### **Policies**

Monash has educational policies, procedures and guidelines, which are designed to ensure that staff and students are aware of the University's academic standards, and to provide advice on how they might uphold them. You can find Monash's Education Policies at: www.policy.monash.edu.au/policy-bank/academic/education/index.html

Key educational policies include:

- Aademic integrity;
  - http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-academic-integrity-policy.l
- Assessment in Coursework Programs; http://www.policy.monash.edu/policy-bank/academic/education/assessment/assessment-in-coursework-po
- Special Consideration:
  - http://www.policy.monash.edu/policy-bank/academic/education/assessment/special-consideration-policy.ht
- Grading Scale;
  - http://www.policy.monash.edu/policy-bank/academic/education/assessment/grading-scale-policy.html
- Discipline: Student Policy;
- http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-discipline-policy.html
- Academic Calendar and Semesters; <a href="http://www.monash.edu.au/students/dates/">http://www.monash.edu.au/students/dates/</a>
- Orientation and Transition; <a href="http://intranet.monash.edu.au/infotech/resources/students/orientation/">http://intranet.monash.edu.au/infotech/resources/students/orientation/</a>
- Academic and Administrative Complaints and Grievances Policy;
- http://www.policy.monash.edu/policy-bank/academic/education/management/complaints-grievance-policy.l
- Code of Practice for Teaching and Learning;
  - http://www.policy.monash.edu.au/policy-bank/academic/education/conduct/suppdocs/code-of-practice-tead

## **Graduate Attributes Policy**

http://www.policy.monash.edu/policy-bank/academic/education/management/monash-graduate-attributes-policy.h

### Student services

The University provides many different kinds of support services for you. Contact your tutor if you need advice and see the range of services available at <a href="http://www.monash.edu.au/students">http://www.monash.edu.au/students</a>. For Sunway see http://www.monash.edu.mv/Student-services, and for South Africa see http://www.monash.ac.za/current/.

## **Monash University Library**

The Monash University Library provides a range of services, resources and programs that enable you to save time and be more effective in your learning and research. Go to www.lib.monash.edu.au or the library tab in my.monash portal for more information. At Sunway, visit the Library and Learning Commons at <a href="http://www.lib.monash.edu.mv/">http://www.lib.monash.edu.mv/</a>. At South Africa visit <a href="http://www.lib.monash.edu.mv/">http://www.lib.monash.edu.mv/</a>.

### **Disability Liaison Unit**

Students who have a disability or medical condition are welcome to contact the Disability Liaison Unit to discuss academic support services. Disability Liaison Officers (DLOs) visit all Victorian campuses on a regular basis.

Website: http://www.monash.edu/equity-diversity/disability/index.htmlTelephone: 03 9905 5704 to book an appointment with a DLO; or contact the Student Advisor, Student Commuity Services at 03 55146018 at SunwayEmail: dlu@monash.eduDrop In: Equity and Diversity Centre, Level 1, Building 55, Clayton Campus, or Student Community Services Department, Level 2, Building 2, Monash University, Sunway Campus

#### Your feedback to Us

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through the Student Evaluation of Teaching and Units (SETU) survey. The University's student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash's educational strategy, see:

<u>www.monash.edu.au/about/monash-directions</u> and on student evaluations, see: <u>www.policy.monash.edu/policy-bank/academic/education/guality/student-evaluation-policy.html</u>

#### **Previous Student Evaluations of this Unit**

Previous student feedback has been generally very positive. There is room for improvement in the provision of feedback to students.

If you wish to view how previous students rated this unit, please go to <a href="https://emuapps.monash.edu.au/unitevaluations/index.jsp">https://emuapps.monash.edu.au/unitevaluations/index.jsp</a>
