FIT3130 Computer network design and deployment - Semester 2, 2013

This unit aims to introduce the systematic top-down network design approach for designing enterprise computer networks. A top down process focuses on requirements analysis and architecture design, which should be completed before the selection of specific network components. The unit provides students with tested processes and tools to help them understand traffic flow, communication protocol behaviour, and internetworking technologies. On completion of the unit, students are equipped to design enterprise computer networks that meet an enterprise users requirements for functionality, capacity, performance, availability, scalability, affordability, security, and manageability.

Mode of Delivery

- Caulfield (Day)
- South Africa (Day)

Contact Hours

2 hrs lectures/wk, 2 hrs laboratories/wk

Workload requirements

- Lectures: 2 hours per week
- Practical classes/Tutorials: 2 hours per week
- Private study (revision, homework and practical class preparation): 8 hours per week

Unit Relationships

Prohibitions

CSE3821, CPE3004, CSE5807, FIT3030, FIT3024

Prerequisites

One of FIT1005, FIT2008, FIT2020, BUS2062, CPE1007, CSE2004, CSE2318, CSE3318 or GCO3812

Chief Examiner

Dr Das Arran

Campus Lecturer

Caulfield
Malik Khan
South Africa

Mohan Das
Academic Overview

Learning Outcomes

At the completion of this unit students should have:

- a detailed knowledge and understanding of all major protocols used in LAN & WAN and WLAN;
- an understanding of major issues in implementing these protocols;
- a detailed knowledge and understanding of network architectures including interaction with firewalls;
- an awareness of the latest developments in TCP/IP (e.g. IPv6, IPSec, multicasting, VoIP, QoS, iSCSI);
- the knowledge and skills to implement and manage TCP/IP services within wired and wireless LANs;
- understand various measures of data network performance;
- exposition of network performance evaluation tool, Network packet analysers, and other performance measurement tools;
- use simulation packages to construct models of computer networks;
- use models for performance analysis and prediction;
- make recommendations for network performance improvement;
- practical skills in setting up TCP/IP connections and routing configurations for different environments;
- experience in setting up LANs and WANs, and wireless LANs using standard protocols.
## Unit Schedule

<table>
<thead>
<tr>
<th>Week</th>
<th>Activities</th>
<th>Assessment</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>Students should register for tutorials</td>
<td>No formal assessment or activities are undertaken in week 0</td>
</tr>
<tr>
<td>1</td>
<td>Introduction of unit, Part I - Identifying network users’ needs and goals: Analysing business goals and constraints; analysing technical goals and tradeoffs</td>
<td></td>
</tr>
<tr>
<td>2</td>
<td>Characterising the existing internetwork; characterising network traffic</td>
<td>Tutorials start Week 2</td>
</tr>
<tr>
<td>3</td>
<td>Part II - Logical Network Design: designing a network topology</td>
<td></td>
</tr>
<tr>
<td>4</td>
<td>Designing models for Addressing andNaming</td>
<td></td>
</tr>

<tbody>
<tr>
<td>Group Assignment - Computer Network Design and Deployment Report and Presentation</td>
<td>30%</td>
<td>Presentation in Week 10 or Week 11 tutorial (to be scheduled); Report due Wednesday 9 October 2013, 4pm</td>
</tr>
<tr>
<td>Tutorial Participation</td>
<td>10%</td>
<td>This will be effective for all tutorials except when students are presenting their assignment, which is</td>
</tr>
</tbody>
</table>
Teaching Approach

Lecture and tutorials or problem classes

This teaching and learning approach provides facilitated learning, practical exploration and peer learning.
Assessment Requirements

Assessment Policy

Faculty Policy - Unit Assessment Hurdles

Academic Integrity - Please see the Demystifying Citing and Referencing tutorial at
http://lib.monash.edu/tutorials/citing/

Assessment Tasks

Participation

• Assessment task 1

Title: Group Assignment - Computer Network Design and Deployment Report and Presentation

Description: Students are to write a multi-site campus network specifications document (business requirements and technical goals), carry out logical network design (topology and choice of routing protocols, etc.), selection of technologies and devices for physical design, use the simulation package to test some input traffic, observe the network performance and optimise the parts of networks to improve performance.

Weighting: 30%

Criteria for assessment:
Students will be assessed individually on their contribution to the group based project with respect to the formal group report and presentation by:

♦ Quality of group presentation
♦ Conciseness of report
♦ Discussion of design specification
♦ Evaluation of network design parameters (logical design)
♦ Selection of internetworking devices and technology (physical design)
♦ Design documentation, conclusion and limitation

Due date:
Presentation in Week 10 or Week 11 tutorial (to be scheduled); Report due Wednesday 9 October 2013, 4pm

• Assessment task 2

Title: Tutorial Participation

Description: Student learning can be enhanced by participation in class activities. Therefore, 10% of unit marks will come from taking part in verbal discussions and exercises during the tutorials.

Weighting: 10%

Criteria for assessment:
The tutor will encourage and keep track of student participation during tutorials, where students are expected to engage with evidence of understanding and prior preparation such as reading study materials ahead of the tutorial.

**Due date:**
This will be effective for all tutorials except when students are presenting their assignment, which is graded separately.

## Examinations

- **Examination 1**
  
  **Weighting:**
  60%
  
  **Length:**
  2 hours
  
  **Type (open/closed book):**
  Closed book
  
  **Electronic devices allowed in the exam:**
  None

## Learning resources

Monash Library Unit Reading List
[http://readinglists.lib.monash.edu/index.html](http://readinglists.lib.monash.edu/index.html)

## Feedback to you

Types of feedback you can expect to receive in this unit are:

- Informal feedback on progress in labs/tutes
- Graded assignments with comments
- Quiz results

## Extensions and penalties

Submission must be made by the due date otherwise penalties will be enforced.

## Returning assignments

Students can expect assignments to be returned within two weeks of the submission date or after receipt, whichever is later.
Assignment submission

It is a University requirement for students to submit an assignment coversheet for each assessment item. Faculty Assignment coversheets can be found at http://www.infotech.monash.edu.au/resources/student/forms/. Please check with your Lecturer on the submission method for your assignment coversheet (e.g. attach a file to the online assignment submission, hand-in a hard copy, or use an online quiz). Please note that it is your responsibility to retain copies of your assessments.

Online submission

If Electronic Submission has been approved for your unit, please submit your work via the learning system for this unit, which you can access via links in the my.monash portal. Additional to the online submission, a hard copy submission is required.

Other Information

Policies

Monash has educational policies, procedures and guidelines, which are designed to ensure that staff and students are aware of the University’s academic standards, and to provide advice on how they might uphold them. You can find Monash’s Education Policies at: www.policy.monash.edu.au/policy-bank/academic/education/index.html

Key educational policies include:

- Academic integrity; http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-academic-integrity-policy.html
- Special Consideration; http://www.policy.monash.edu/policy-bank/academic/education/assessment/special-consideration-policy.html
- Grading Scale; http://www.policy.monash.edu/policy-bank/academic/education/assessment/grading-scale-policy.html
- Discipline: Student Policy; http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-discipline-policy.html
- Academic Calendar and Semesters; http://www.monash.edu.au/students/dates/
- Orientation and Transition; http://intranet.monash.edu.au/infotech/resources/students/orientation/
- Graduate Attributes Policy

http://www.policy.monash.edu/policy-bank/academic/education/management/monash-graduate-attributes-policy.html

Student services

The University provides many different kinds of support services for you. Contact your tutor if you need advice and see the range of services available at http://www.monash.edu.au/students. For Sunway see http://www.monash.edu.my/Student-services, and for South Africa see http://www.monash.ac.za/current/.

Monash University Library

The Monash University Library provides a range of services, resources and programs that enable you to save time and be more effective in your learning and research. Go to www.lib.monash.edu.au or the library tab in my.monash portal for more information. At Sunway, visit the Library and Learning Commons at http://www.lib.monash.edu.my/. At South Africa visit http://www.lib.monash.ac.za/.
Other Information

Disability Liaison Unit

Students who have a disability or medical condition are welcome to contact the Disability Liaison Unit to discuss academic support services. Disability Liaison Officers (DLOs) visit all Victorian campuses on a regular basis.

Website: http://www.monash.edu/equity-diversity/disability/index.html Telephone: 03 9905 5704 to book an appointment with a DLO; or contact the Student Advisor, Student Community Services at 03 55146018 at Sunway Email: dlu@monash.edu Drop In: Equity and Diversity Centre, Level 1, Building 55, Clayton Campus, or Student Community Services Department, Level 2, Building 2, Monash University, Sunway Campus

Your feedback to Us

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through the Student Evaluation of Teaching and Units (SETU) survey. The University’s student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash’s educational strategy, see:

www.monash.edu.au/about/monash-directions and on student evaluations, see:
www.policy.monash.edu/policy-bank/academic/education/quality/student-evaluation-policy.html

Previous Student Evaluations of this Unit

Previous feedback highlighted the appropriate use of case studies, which will be retained. Several students asked for more practical components, which will be improved this year, but while striking a balance with the theoretical foundations of the unit.

If you wish to view how previous students rated this unit, please go to https://emuapps.monash.edu.au/unitevaluations/index.jsp
