FIT3013 Formal specification for software engineering -Semester 2, 2014

Review of set theory, the predicate calculus, relations, relational algebra and formal specification concepts; algebraic and model based specifications; the role of formal specifications in software engineering. The Event-B notation, the role of proof obligations and refinement, the LTL and CTL temporal logics, the model checking approach and techniques.

Mode of Delivery

Clayton (Day)

Workload Requirements

Minimum total expected workload equals 12 hours per week comprising:

(a.) Contact hours for on-campus students:

- Two hours of lectures
- One 2-hour tutorial/lab

(b.) Additional requirements (all students):

• A minimum of 8 hours independent study per week for completing lab and project work, private study and revision.

Additional workload requirements

Students will be expected to spend a total of 12 hours per week during semester on this unit as follows:

- 2 hours in lectures
- 2 hours in tutorials/labs
- 3-4 hours of study material revision
- 4-5 hours practising with the verification tools (details to be advised), and developing assignment solutions.

Unit Relationships

Prohibitions

CSE4213

Prerequisites

FIT2004 and one of MAT1830, MTH1112 or MAT1077

A knowledge of set theory, predicate logic, graph, automata and declarative programming is assumed, together with some experience in dealing with the first two.

Chief Examiner

Dr Yuan-Fang Li

Campus Lecturer

Your feedback to Us

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through the Student Evaluation of Teaching and Units (SETU) survey. The University's student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash's educational strategy, see:

<u>www.monash.edu.au/about/monash-directions/</u> and on student evaluations, see: <u>www.policy.monash.edu/policy-bank/academic/education/quality/student-evaluation-policy.html</u>

Previous Student Evaluations of this Unit

Previous feedback has informed improvements to this unit, including the incorporation of weekly 2-hour tutorials/labs for practice with the tools used in this unit: Rodin and NuSMV.

If you wish to view how previous students rated this unit, please go to <u>https://emuapps.monash.edu.au/unitevaluations/index.jsp</u>

Academic Overview

Learning Outcomes

At the completion of this unit students should be able to:

- articulate the role and importance of formal modelling and verification;
- develop Event-B specifications;
- apply Rodin to analyse an Event-B specification and verify proof obligations;
- distinguish and evaluate the trade-offs in system modelling using Event-B and temporal logics;
- develop basic specifications and formulate properties in temporal logics;
- utilise a model checker to verify such properties.

Unit Schedule

Week	Activities	Assessment
0		No formal assessment or activities are undertaken in week 0
1	Administrivia & introduction to basic mathematical background knowledge	Weekly assessed tutorials commence (10% of unit marks)
2	Introduction to B & Event-B	
3	Abstract machines in B	
4	Abstract machines through an example	
5	Event-B Semantics	
6	Proof obligations and discharge using Rodin	
7	Structuring specifications	Assignment 1 due Week 7, Friday
8	Introduction to automata	
9	Introduction to model checking	
10	LTL model checking (1)	
11	LTL model checking (2)	Assignment 2 due Week 11, Friday
12	CTL model checking	
	SWOT VAC	No formal assessment is undertaken in SWOT VAC
	Examination period	LINK to Assessment Policy: http://policy.monash.edu.au/policy-bank/ academic/education/assessment/ assessment-in-coursework-policy.html

*Unit Schedule details will be maintained and communicated to you via your learning system.

Teaching Approach

Lecture and tutorials or problem classes

This teaching and learning approach provides facilitated learning, practical exploration and peer learning. **Assessment Summary**

Examination (2 hours): 50%; In-semester assessment: 50%

Assessment Task	Value	Due Date
Assignment 1 - Event-B Specification and Proof Discharge	20% (Parts 1 and 2 = 10% each)	Week 7, Friday
Assignment 2 - Model Checking	20%	Week 11, Friday
Class participation	10%	Weekly
Examination 1	50%	To be advised

Unit Schedule

Assessment Policy

Faculty Policy - Unit Assessment Hurdles (http://intranet.monash.edu.au/infotech/resources/staff/edgov/policies/assessment-examinations/assessment-hurd

Academic Integrity - Please see resources and tutorials at <u>http://www.monash.edu/library/skills/resources/tutorials/academic-integrity/</u>

Assessment Tasks

Participation

Assessment task 1

Title:

Assignment 1 - Event-B Specification and Proof Discharge

Description:

A proof-discharged Event-B specification of a problem (exact problem to be advised).

This assignment is administered in two parts. Part 1 is about defining the various parameters of the specification (in fact, a requirements analysis), and Part 2 is about developing the Event-B specification in Rodin.

Assignment release date Week 3.

Weighting:

20% (Parts 1 and 2 = 10% each)

Criteria for assessment:

Correctness and completeness of specification.

Discharge of all proof obligations (mechanically or manually).

Declarative style of specification.

Due date:

Week 7, Friday

Assessment task 2

Title:

Assignment 2 - Model Checking

Description:

A specification will be given, which is to be developed in a model in linear temporal logic.

A number of properties will also need to be expressed in LTL and verified by a model checker.

Assignment release date Week 7.

Weighting:

20%

Criteria for assessment:

Correctness and completeness of specification and properties.

Declarative style of specification.

```
Due date:
```

Week 11, Friday

Assessment task 3

Title:

Class participation

Description:

Students will be assessed on class participation: active engagement in problem solving in tutorials.

Weighting:

10%

Criteria for assessment:

Completion of exercises.

Quality or correctness of solutions to questions, demonstrating understanding of the learning materials.

Due date:

Weekly

Examinations

• Examination 1

Weighting: 50% Length: 2 hours Type (open/closed book): Closed book Electronic devices allowed in the exam: None Remarks: Sample papers will be available on the unit website.

Learning resources

Monash Library Unit Reading List (if applicable to the unit) <u>http://readinglists.lib.monash.edu/index.html</u>

Faculty of Information Technology Style Guide

Feedback to you

Examination/other end-of-semester assessment feedback may take the form of feedback classes, provision of sample answers or other group feedback after official results have been published. Please check with your lecturer on the feedback provided and take advantage of this prior to requesting individual consultations with staff. If your unit has an examination, you may request to view your examination script booklet, see

http://intranet.monash.edu.au/infotech/resources/students/procedures/request-to-view-exam-scripts.html

Types of feedback you can expect to receive in this unit are:

- Informal feedback on progress in labs/tutes
- Graded assignments with comments

Extensions and penalties

Submission must be made by the due date otherwise penalties will be enforced.

You must negotiate any extensions formally with your campus unit leader via the in-semester special consideration process: <u>http://www.monash.edu.au/exams/special-consideration.html</u>

Returning assignments

Students can expect assignments to be returned within two weeks of the submission date or after receipt, whichever is later.

Assignment submission

It is a University requirement

(http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-academic-integrity-managing-pla for students to submit an assignment coversheet for each assessment item. Faculty Assignment coversheets can be found at <u>http://www.infotech.monash.edu.au/resources/student/forms/</u>. Please check with your Lecturer on the submission method for your assignment coversheet (e.g. attach a file to the online assignment submission, hand-in a hard copy, or use an online quiz). Please note that it is your responsibility to retain copies of your assessments.

Online submission

If Electronic Submission has been approved for your unit, please submit your work via the learning system for this unit, which you can access via links in the my.monash portal.

Required Resources

Please check with your lecturer before purchasing any Required Resources. Limited copies of prescribed texts are available for you to borrow in the library, and prescribed software is available in student labs.

The following software will be required in this unit. They can be downloaded for free from various sources and are available for all major operating systems.

- Rodin, available from http://www.event-b.org/
- NuSMV, available from http://nusmv.fbk.eu/

Recommended Resources

Materials of this units are mainly drawn from the following two textbooks:

• Abrial, Jean-Raymond. *Modeling in Event-B: system and software engineering*. Cambridge University Press, 2010.

• Baier, Christel, and Joost-Pieter Katoen. *Principles of model checking*. Vol. 26202649. Cambridge: MIT press, 2008.

Other Information

Policies

Monash has educational policies, procedures and guidelines, which are designed to ensure that staff and students are aware of the University's academic standards, and to provide advice on how they might uphold them. You can find Monash's Education Policies at: www.policy.monash.edu.au/policy-bank/academic/education/index.html

Key educational policies include:

- Student Academic Integrity Policy and Student Academic Integrity: Managing Plagiarism and Collusion Procedures;
- http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-academic-integrity-policy.level 4 Assessment in Coursework Programs;
- Grading Scale;
 http://www.policy.monash.edu/policy-bank/academic/education/assessment/grading-scale-policy.html
- Discipline: Student Policy; http://www.policy.monash.edu/policy-bank/academic/education/assessment/grading-scale-policy.html
- Academic Calendar and Semesters; http://www.monash.edu.au/students/dates/
- Orientation and Transition; http://intranet.monash.edu.au/infotech/resources/students/orientation/
- Academic and Administrative Complaints and Grievances Policy; http://www.policy.monash.edu/policy-bank/academic/education/management/complaints-grievance-policy.l

Faculty resources and policies

Important student resources including Faculty policies are located at http://intranet.monash.edu.au/infotech/resources/students/

Graduate Attributes Policy

Student Charter

www.opq.monash.edu.au/ep/student-charter/monash-university-student-charter.html

Student services

The University provides many different kinds of support services for you. Contact your tutor if you need advice and see the range of services available at <u>http://www.monash.edu.au/students</u>. For Malaysia see <u>http://www.monash.edu.my/Student-services</u>, and for South Africa see <u>http://www.monash.ac.za/current/</u>.

Monash University Library

The Monash University Library provides a range of services, resources and programs that enable you to save time and be more effective in your learning and research. Go to www.lib.monash.edu.au or the library tab in <u>my.monash</u> portal for more information. At Malaysia, visit the Library and Learning Commons at <u>http://www.lib.monash.edu.my/</u>. At South Africa visit <u>http://www.lib.monash.ac.za/</u>.

Disability Liaison Unit

Students who have a disability or medical condition are welcome to contact the Disability Liaison Unit to discuss academic support services. Disability Liaison Officers (DLOs) visit all Victorian campuses on a regular basis.

- Website: http://www.monash.edu/equity-diversity/disability/index.html
- Telephone: 03 9905 5704 to book an appointment with a DLO; or contact the Student Advisor, Student Commuity Services at 03 55146018 at Malaysia
- Email: dlu@monash.edu
- Drop In: Equity and Diversity Centre, Level 1, Building 55, Clayton Campus, or Student Community Services Department, Level 2, Building 2, Monash University, Malaysia Campus
