FIT2002 Project management - Semester 1, 2015

This unit introduces students to the many concepts, tools and techniques for managing information technology projects. Exploring traditional and agile approaches for managing projects, topics include project lifecycles, project planning, project scheduling, team building, risk management, time and quality management. A case study approach will be used to provide learning opportunities, with an emphasis on the unique aspects of information technology projects.

Mode of Delivery

Caulfield (Day)

Workload Requirements

Minimum total expected workload equals 12 hours per week comprising:

(a.) Contact hours for on-campus students:

- One 2-hour lecture
- One 2-hour laboratory

(b.) Study schedule for off-campus students:

- Off-campus students generally do not attend lecture and tutorial sessions, however should plan to spend equivalent time working through the relevant resources and participating in discussion groups each week.

(c.) Additional requirements (all students):

- a minimum of 2-3 hours of personal study per one hour of contact time in order to satisfy the reading and assignment expectations.

See also Unit timetable information

Unit Relationships

Prohibitions

AFW3043, BEW3640, BUS2176, CIV3205, CPE2006, CSE2203, GCO3807, GEG3104, GSE3003, FIT3086, MGW2700, MMS2203

Prerequisites

Completion of at least 24 points of level one study or equivalent.
Chief Examiner

Ms Margot Schuhmacher

Campus Lecturer

Caulfield

Karan Pedramrazi

Your feedback to Us

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through the Student Evaluation of Teaching and Units (SETU) survey. The University’s student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash’s educational strategy, see:

www.monash.edu.au/about/monash-directions/ and on student evaluations, see:
www.policy.monash.edu/policy-bank/academic/education/quality/student-evaluation-policy.html

Previous Student Evaluations of this Unit

In response to student feedback, the unit has been revised with an IT project management focus and less accounting. Assignments have been redesigned to develop project management aspects.

If you wish to view how previous students rated this unit, please go to https://emuapps.monash.edu.au/unitevaluations/index.jsp
Academic Overview

Learning Outcomes

At the completion of this unit, students should be able to:

1. describe the Project Management Body of Knowledge;
2. discuss the unique attributes and diverse nature of IT projects;
3. create a project plan;
4. use project management techniques and tools to manage a small-scale project.

Assessment Tasks

Participation

• Assessment task 1

  Title: Project Plan - Part 1

  Description: In teams of two, you will identify a business problem and propose an information technology solution for the business problem. You will need to confirm your business problem and proposed solution with your tutor by week 3. For the business problem and proposed solution you will need to describe the business problem and solution, describe the expected benefits, identify the project methodology, and identify the project scope and stakeholders.

  Weighting: 10%

  Criteria for assessment:

  ♦ How well the problem and solution are described.
  ♦ How well the methodology is justified.
  ♦ Quality of the analysis.
  ♦ Report presentation.

  Team members will be awarded the same mark with adjustments made for each team member based on peer assessment.

  Due date: Week 5

  Remarks: You must confirm your business problems and proposed solution with your tutor by week 3.

• Assessment task 2

  Title: Project Plan - Part 2

  Description: Continuing on your proposed information technology solution for a business problem, you will need to prepare a schedule, create risk management and communication plans, and prepare a video presentation (approximately 5 minutes) of your identified problem and how you will manage your proposed solution. The purpose of the video presentation is to communicate to the business owner that project is feasible.
Weighting:
20% (15% Plan - Part 2, 5% video presentation)

Criteria for assessment:

♦ How well the plan is organised and presented.
♦ Quality of the analysis.
♦ Justification of the schedule and risks
♦ Quality and feasibility of the communication plan
♦ Quality of, and how well the information is communicated in the video presentation.

Team members will be awarded the same mark with adjustments made for each team member based on peer assessment.

Due date:
Week 11

• Assessment task 3

Title: Quizzes
Description: There are five online quizzes consisting of randomly generated multiple choice questions on project management topics.

Weighting:
10%

Criteria for assessment:
Accuracy of answers

Due date:
Weeks 4, 6, 8, 10, 12

Examinations

• Examination 1

Weighting:
60%

Length:
3 hours

Type (open/closed book):
Closed book

Electronic devices allowed in the exam:
Calculators - Non Programmable

Learning resources

Reading list

Assessment Requirements

Project management; studies in the area of project management reported from monash university. (2014). Technology & Business Journal, , 1802.

Katzen, B. (2001). Project mismanagement. Institute of Chartered Accountants in Australia. 72(7)

Monash Library Unit Reading List (if applicable to the unit)
http://readinglists.lib.monash.edu/index.html

Feedback to you

Types of feedback you can expect to receive in this unit are:

• Graded assignments with comments
• Quiz results

Extensions and penalties

Submission must be made by the due date otherwise penalties will be enforced.

You must negotiate any extensions formally with your campus unit leader via the in-semester special consideration process: http://www.monash.edu.au/exams/special-consideration.html

Returning assignments

Students can expect assignments to be returned within two weeks of the submission date or after receipt, whichever is later.

Assignment submission

It is a University requirement (http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-academic-integrity-managing-plagiarism-collusion-procedures.html) for students to submit an assignment coversheet for each assessment item. Faculty Assignment coversheets can be found at http://www.infotech.monash.edu.au/resources/student/forms/. Please check with your Lecturer on the submission method for your assignment coversheet (e.g. attach a file to the
online assignment submission, hand-in a hard copy, or use an electronic submission). Please note that it is your responsibility to retain copies of your assessments.

**Online submission**

If Electronic Submission has been approved for your unit, please submit your work via the learning system for this unit, which you can access via links in the my.monash portal.

**Required Resources**

Please check with your lecturer before purchasing any Required Resources. Limited copies of prescribed texts are available for you to borrow in the library, and prescribed software is available in student labs.

You can purchase the prescribed text by:

2. Contacting the Campus Bookstore via phone on (03) 8573 5300, email on caulfield@thecampusbookstore.com, or come in store **BY 13 March 2015**.
3. Ordering direct from the publisher at http://www.thepress.purdue.edu/titles/format/9781557536631

The prescribed text is also available to borrow as an eBook in the library.

**Prescribed text(s)**

Limited copies of prescribed texts are available for you to borrow in the library.

**Recommended Resources**

This software is available in student labs (please confirm with your tutor during tutorials).
Other Information

Policies

Monash has educational policies, procedures and guidelines, which are designed to ensure that staff and students are aware of the University’s academic standards, and to provide advice on how they might uphold them. You can find Monash’s Education Policies at: www.policy.monash.edu.au/policy-bank/academic/education/index.html

Faculty resources and policies

Important student resources including Faculty policies are located at http://intranet.monash.edu.au/infotech/resources/students/

Graduate Attributes Policy

http://www.policy.monash.edu/policy-bank/academic/education/management/monash-graduate-attributes-policy.html

Student Charter

Student services

The University provides many different kinds of support services for you. Contact your tutor if you need advice and see the range of services available at http://www.monash.edu.au/students. For Malaysia see http://www.monash.edu.my/Student-services, and for South Africa see http://www.monash.ac.za/current/.

Monash University Library

The Monash University Library provides a range of services, resources and programs that enable you to save time and be more effective in your learning and research. Go to www.lib.monash.edu.au or the library tab in my.monash portal for more information. At Malaysia, visit the Library and Learning Commons at http://www.lib.monash.edu.my/. At South Africa visit http://www.lib.monash.ac.za/.

Disability Liaison Unit

Students who have a disability or medical condition are welcome to contact the Disability Liaison Unit to discuss academic support services. Disability Liaison Officers (DLOs) visit all Victorian campuses on a regular basis.

- Website: http://www.monash.edu/equity-diversity/disability/index.html
- Telephone: 03 9905 5704 to book an appointment with a DLO; or contact the Student Advisor, Student Community Services at 03 55146018 at Malaysia
- Email: dlu@monash.edu
- Drop In: Equity and Diversity Centre, Level 1, Building 55, Clayton Campus, or Student Community Services Department, Level 2, Building 2, Monash University, Malaysia Campus

Engineers Australia Stage 1 competencies

This unit is a core unit in the Bachelor of Software Engineering accredited by Engineers Australia. Engineers Australia Accreditation Policy of Professional Engineering Programs requires that programs demonstrate how engineering graduates are prepared for entry to the profession and achieve Stage 1 competencies. The following information describes how this unit contributes to the development of these competencies for the Bachelor of Software Engineering. (Note: not all competencies may be emphasised in this unit).

<table>
<thead>

<td></td>
</tr>
<tr>
<td>accountability.</td>
<td></td>
</tr>
</tbody>
</table>
3.2. **Effective** oral and written communication in professional and lay domains. Students are expected to communicate effectively when developing solutions to projects. This includes oral and written communication in the form of stakeholder presentation and project documentation.

3.3. **Creative**, innovative and proactive demeanour. Students will develop creative and innovative information technology solutions for business problems.

3.4. **Professional** use and management of information. Not covered in this unit.

3.5. **Orderly** management of self, and professional conduct. Students will need to prepare a professional presentation for their business information technology solution. To achieve this they will need to manage their self.

3.6. **Effective** team membership and team leadership. Students will work in teams, and study team management and leadership skills in relation to leading information technology projects.
