FIT3136 IT governance and strategy for business - Semester 1, 2015

This unit provides students with an understanding of how to manage and govern the IT function in business organisations. It builds on themes relating to managing IT as an organisational resource and discusses IT function from strategy and governance perspectives. The unit also emphasises the relationship between theoretical knowledge and its practical application using cases and real examples.

Core concepts discussed in this unit include the strategic context of IT management, alignment between business strategy and IT strategy, IT governance processes, various types of IT processes, organising and managing the IT function (including the role of the CIO), legal and ethical concerns of IT, evaluating IT portfolio management, IT provisioning issues, including outsourcing.

Mode of Delivery

Malaysia (Day)

Workload Requirements

Minimum total expected workload equals 12 hours per week comprising:

(a.) Contact hours for on-campus students:

- Two hours of lectures
- One 2-hour tutorial

(b.) Additional requirements (all students):

- A minimum of 8 hours independent study per week for completing tutorial and project work, private study and revision.

Your feedback to Us

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through the Student Evaluation of Teaching and Units (SETU) survey. The University's student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash's educational strategy, see:

www.monash.edu.au/about/monash-directions/ and on student evaluations, see:
www.policy.monash.edu/policy-bank/academic/education/quality/student-evaluation-policy.html

Previous Student Evaluations of this Unit

Student feedback has indicated that this unit is well structured. Drawing on the feedback, improvements and extensions have been made in such areas as IT governance, strategic contexts of organisations and IT, and IT strategy alignment.

Academic Overview

Learning Outcomes

At the completion of this unit student will have -A knowledge and understanding of:

- strategic contexts of IT management;
- alignment between business strategy and IT strategy;
- forms of IT governance;
- various types of IT processes;
- organising and managing IT function (including role of CIO);
- legal and ethical concerns of IT;
- evaluating IT portfolio management;
- IT provisioning issues including IT outsourcing.

Developed attitudes that enable them to:

- develop an ability to identify and manage changes in IT strategy due to changes in business strategy;
- recognise the need to assess the socio-political motivations for evaluating IT business value and IT outsourcing decisions;
- critically assess the legal and ethical issues associated with managing and governing IT resources.

Developed the skills to:

- prepare IT strategy in alignment with business strategy;
- prepare IT outsourcing policies;
- develop a mindset of ethical practice in managing IT resources.

Assessment Tasks

Participation

• Assessment task 1

Title:

Assignment 1: Evaluation of COBIT implementation - A tale of two banks

Description:

Assignment 1 aims at determining students' understanding about COBIT, a major IT governance framework, commonly used by organisations across many industries worldwide. Students will be asked to read two case reports that describe the experiences of two large banks in implementing COBIT, and then drawing on the theoretical constructs involved in COBIT, students are required to rigorously analyse the COBIT implementation experience of these banks. In particular, students are asked to prepare their insightful views on strategic motivations, barriers, impact, and lessons of these two banks with regards to COBIT implementation initiatives and then relate them with the views of scholars discussed in the IT governance literature.

Weighting:

20%

Criteria for assessment:

This assignment will be evaluated in terms of:

- ◆ completeness of arguments
- ◆ correctness of arguments
- ◆ richness of arguments
- ◆ clarity of expression
- ◆ and use of appropriate references to support arguments.

Due date:

Friday 24 April 2015

• Assessment task 2

Title:

Assignment 2 : Evaluating IT systems failure - A case study

Description:

This assignment is designed to test students' understanding about the factors that contribute to the failure of large scale;complex IT systems in organisations. A case study report describing the failure of a complex IT system would be provided to the students. Students are required to apply a number of theoretical frameworks (which are discussed in this unit) to the context of the case report, and then make an insightful analysis. Students are further expected to consult a number of scholarly sources, as directed by the

Assessment Requirements

lecturer, to compare their analysis with the broader views on IT systems failure discussed in the IT literature.

Feedback to you

Types of feedback you can expect to receive in this unit are:

- Graded assignments with comments
- Solutions to tutes, labs and assignments

Extensions and penalties

Submission must be made by the due date otherwise penalties will be enforced.

You must negotiate any extensions formally with your campus unit leader via the in-semester special consideration process: <http://www.monash.edu.au/exams/special-consideration.html>

Returning assignments

Students can expect assignments to be returned within two weeks of the submission date or after receipt, whichever is later.

Referencing requirements

Harvard style referencing is preferred for assignments.

Assignment submission

It is a University requirement

(<http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-academic-integrity-managing-pla>

for students to submit an assignment coversheet for each assessment item. Faculty Assignment coversheets can be found at <http://www.infotech.monash.edu.au/resources/student/forms/>. Please check with your Lecturer on the submission method for your assignment coversheet (e.g. attach a file to the online assignment submission, hand-in a hard copy, or use an electronic submission). Please note that it is your responsibility to retain copies of your assessments.

Online submission

If Electronic Submission has been approved for your unit, please submit your work via the learning system for this unit, which you can access via links in the my.monash portal.
