FIT4443 Honours thesis part 3 - Semester 1, 2015

This unit is a research unit and a core requirement for all FIT Honours degrees. Due to the nature of IT, a wide range of Honours project types can be offered to students. Some project components are of a practical nature and may involve some software development and/or experimentation, while other components are of a more theoretical nature.

This unit forms part of the sequence of units comprising the Honours thesis in the Faculty of Information Technology.

Two exit points exist for the Honours thesis, <u>FIT4444</u> (24cpts) and <u>FIT4448</u> (18 cpts). The 24 credit point exit point is applicable to:

Bachelor of Business Information Systems (Honours), Bachelor of Computer Science (Honours), Honours degree of Bachelor of Computer and Information Sciences, Bachelor of Information Technology and Systems (Honours).

The 18 credit point exit point is applicable to:

Honours stream in the Bachelor of Software Engineering.

Mode of Delivery

- Caulfield (Day)
- Clayton (Day)
- South Africa (Day)

Workload Requirements

Minimum total expected workload equals 12 hours per week. Students will be expected to hold regular meetings with supervisor(s) over the course of the semester.

Your feedback to Us

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through the Student Evaluation of Teaching and Units (SETU) survey. The University's student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash's educational strategy, see:

<u>www.monash.edu.au/about/monash-directions/</u> and on student evaluations, see: <u>www.policy.monash.edu/policy-bank/academic/education/quality/student-evaluation-policy.html</u>

Academic Overview

Learning Outcomes

On completion of the Honours thesis units, students will be able to:

- 1. design a rigorous Bachelor Honours level research project and develop project proposal;
- 2. critically review research literature, research design and reported findings;
- 3. evaluate and select research methods and techniques of data collection and analysis appropriate to particular research designs, projects and disciplines;
- 4. conduct ethical research;
- 5. communicate research findings in written and oral form in research and industry settings.
