FIT5083 Network infrastructure - Semester 2, 2015

Transmission media imposes various and often unique constraints on the design of networks and their achievable performance. This unit will cover key performance concepts in copper cables, optical fibre cabled and wireless transmission media. This includes atmospheric propagation impact on QoS, satellite and wireless systems, Wifi, WiMax network propagation issues and planning concepts, and satellite and terrestrial service planning concepts. The infrastructure requirements, reliability and maintainability of networks with specific transmission media will be covered, including the application of GIS in design and planning for terrestrial, mobile and cellular systems.

- IEEE standards: 802.11, 802.16, 802.15
- ITU-T LTE standards

Mode of Delivery

- Caulfield (Evening)
- South Africa (Day)

Workload Requirements

Minimum total expected workload equals 12 hours per week comprising:

(a.) Contact hours for on-campus students:

- Two hours of lectures
- One 2-hour laboratory

(b.) Additional requirements (all students):

- A minimum of 8 hours independent study per week for completing lab and project work, private study and revision.

See also Unit timetable information

Unit Relationships

Prerequisites

(FIT9135 or FIT5135 or FIT9020) or equivalent

Chief Examiner

Dr Malik Khan

Campus Lecturer
**Fit5083 Network infrastructure - Semester 2, 2015**

**Caulfield**  
Dr. Malik Khan  
Consultation hours: TBA  

**South Africa**  
Etienne Feukeu  
Consultation hours: TBA

**Your feedback to Us**

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through the Student Evaluation of Teaching and Units (SETU) survey. The University's student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash’s educational strategy, see:  
www.monash.edu.au/about/monash-directions/ and on student evaluations, see:  
www.policy.monash.edu/policy-bank/academic/education/quality/student-evaluation-policy.html

**Previous Student Evaluations of this Unit**

This unit was offered in Semester-2 2014 and students rated the Unit FIT5083 with the following outcome, the rating was good with the students expected outcome for this unit was very satisfactory. The unit enabled students to achieve its learning objectives = 4.2/5; Students found the unit to be intellectually stimulating = 4.15/5; The learning resources in this unit supported student studies = 4.1/5; The feedback student received in this unit was useful = 4.4/5; Overall students were satisfied with the quality of this unit = 4.15/5; The organisation and progression of the topics in this unit made sense to students= 4.18/5; Students was satisfied with the way practical and/or tutorial activities were conducted = 4.1/5; The assessment tasks helped students to develop the knowledge and skills required for this unit = 3.95/5; Students were encouraged to actively participate in this unit = 4.2/5

The content in this unit is mostly new and evolving, as it was redesigned a couple of times for the MNS degree. This latest revised unit has been offered for the first time in 2014 semester-1. Since then the Unit has been received well by the students. The student's feedback in the last semester was to reduce heavy technical details and to structure the course content that will be easily understood. Time and again the content of the course has been fine tuned to make the student understand the network infrastructure concepts well. This will be again addressed in this offering.

If you wish to view how previous students rated this unit, please go to  
Academic Overview

Learning Outcomes

On successful completion of this unit, students should be able to:

- describe basic communications and network infrastructures;
- analyse and evaluate communications and network infrastructures for enterprises;
- use latest wired and wireless network technologies in building network infrastructures.

Assessment Policy

Faculty Policy - Unit Assessment Hurdles

Academic Integrity - Please see resources and tutorials at
http://www.monash.edu/library/skills/resources/tutorials/academic-integrity/

Assessment Tasks

Participation

• **Assessment task 1**

  **Title:** Assignment 1 (individual assignment)
  **Description:** Individual assignment covering topics from Week 1 - 5.
  Infrastructure Design and Planning Report (format and topic TBD).
  **Weighting:** 10%
  **Criteria for assessment:**
  1. Correctness and understanding
  2. Completeness
  3. Presentation quality

  This part of the assessments will cover the three learning outcomes of the Unit.
  **Due date:** Week 6 due by Friday 4th September 4:00 PM 2015

• **Assessment task 2**

  **Title:** Assignment 2 (individual assignment)
  **Description:** Individual assignment covering topics from Week 6 - 11.
  Infrastructure Design and Planning Report (format and topic TBD).
  **Weighting:** 10%
  **Criteria for assessment:**
  1. Correctness and understanding
  2. Completeness
  3. Presentation quality

  This part of the assessments will cover the three learning outcomes of the Unit.
  **Due date:**
Assessment Requirements

Week 11 due by Friday 16th October 4:00 PM 2015

• Assessment task 3

Title: Lab exercises

Description: Lab exercises will be handed out each week from Week 2 to Week 12. Please read the handouts for details for each tutorial work. The students are required to work in small groups to complete the tutorials and submit their work by end of the day. Note: This part of assessment task 3 also includes two online tutorial quizzes in week 9 and 12 which consists of 5% marks each. Details of the coverage will be announced in Moodle.

Weighting: 20%

Criteria for assessment: You will get the full mark if you can complete all the exercises and demonstrate them well. Different marks will be given depending on the level of completion and demonstration. Two online quizzes in week 9 and 12 will also be an important criteria for assessment and contribute for this part of marks. This part of the assessments will cover all the three learning outcomes of the Unit.

Due date: End of each weekly laboratory class

Examinations

• Examination 1

Weighting: 60%

Length: 3 hours

Type (open/closed book): Closed book

Electronic devices allowed in the exam: Non-programmable scientific calculator is permitted.

Learning resources

Monash Library Unit Reading List (if applicable to the unit)
http://readinglists.lib.monash.edu/index.html

Feedback to you

Types of feedback you can expect to receive in this unit are:

• Informal feedback on progress in labs/tutes
• Graded assignments with comments
• Solutions to tutes, labs and assignments
Extensions and penalties

Submission must be made by the due date otherwise penalties will be enforced.

You must negotiate any extensions formally with your campus unit leader via the in-semester special consideration process: http://www.monash.edu.au/exams/special-consideration.html

Returning assignments

Students can expect assignments to be returned within two weeks of the submission date or after receipt, whichever is later.

Assignment submission

It is a University requirement for students to submit an assignment coversheet for each assessment item. Faculty Assignment coversheets can be found at http://www.infotech.monash.edu.au/resources/student/forms/. Please check with your Lecturer on the submission method for your assignment coversheet (e.g. attach a file to the online assignment submission, hand-in a hard copy, or use an electronic submission). Please note that it is your responsibility to retain copies of your assessments.

Online submission

If Electronic Submission has been approved for your unit, please submit your work via the learning system for this unit, which you can access via links in the my.monash portal.

Required Resources

Please check with your lecturer before purchasing any Required Resources. Limited copies of prescribed texts are available for you to borrow in the library, and prescribed software is available in student labs.

Matlab software will be used in a number of laboratories, and students should consider installing Matlab on a personal system.

Technological Requirements

Students are permitted to bring privately owned notebooks or laptops into class.

Recommended text(s)

Other Information

Policies

Monash has educational policies, procedures and guidelines, which are designed to ensure that staff and students are aware of the University’s academic standards, and to provide advice on how they might uphold them. You can find Monash’s Education Policies at: www.policy.monash.edu.au/policy-bank/academic/education/index.html

Faculty resources and policies

Important student resources including Faculty policies are located at http://intranet.monash.edu.au/infotech/resources/students/

Graduate Attributes Policy

http://www.policy.monash.edu/policy-bank/academic/education/management/monash-graduate-attributes-policy.html

Student Charter

Student services

The University provides many different kinds of support services for you. Contact your tutor if you need advice and see the range of services available at http://www.monash.edu.au/students. For Malaysia see http://www.monash.edu.my/Student-services, and for South Africa see http://www.monash.ac.za/current/.

Monash University Library

The Monash University Library provides a range of services, resources and programs that enable you to save time and be more effective in your learning and research. Go to www.lib.monash.edu.au or the library tab in my.monash portal for more information. At Malaysia, visit the Library and Learning Commons at http://www.lib.monash.edu.my/. At South Africa visit http://www.lib.monash.ac.za/.

Disability Liaison Unit

Students who have a disability or medical condition are welcome to contact the Disability Liaison Unit to discuss academic support services. Disability Liaison Officers (DLOs) visit all Victorian campuses on a regular basis.

- Website: http://www.monash.edu/equity-diversity/disability/index.html
- Telephone: 03 9905 5704 to book an appointment with a DLO; or contact the Student Advisor, Student Community Services at 03 55146018 at Malaysia
- Email: dlu@monash.edu
- Drop In: Equity and Diversity Centre, Level 1, Building 55, Clayton Campus, or Student Community Services Department, Level 2, Building 2, Monash University, Malaysia Campus
