FIT5125 IT research methods - Semester 2, 2015

The aim of this unit is to prepare Masters students in the Faculty of Information Technology to conduct research across the range of IT disciplines, including computer science, software engineering, information systems and information management.

It introduces students to major research philosophies and paradigms, the principles of research design, research ethics, research methods and techniques of data collection and analysis appropriate to IT research and their disciplines, and IT research in research and industry settings.

Skills developed and knowledge acquired from this unit will prepare students to conduct and communicate their own research, as well as to be knowledgeable and critical interpreters of others’ research.

Mode of Delivery

- Caulfield (Day)
- Caulfield (Online)

Workload Requirements

Minimum total expected workload equals 12 hours per week comprising:

(a.) Contact hours for on-campus students:
Two 2-hour workshops

(b.) Additional requirements (all students):
A minimum of 8 hours independent study per week for completing lab and project work, private study and revision.

See also Unit timetable information

Unit Relationships

Prohibitions

FIT4005, FIT5143, FIT5185, FIT5190

Prerequisites

Students must be enrolled in an FIT Masters degree or Research degree and have successfully completed 24 points of level five non-foundation units and achieved an overall average of at least 70% across all non-foundation units. Foundation units are (FIT9123 or FIT5123), (FIT9130 or FIT5130), (FIT9131 or FIT5131), (FIT9132 or FIT5132), (FIT9134 or FIT5134) and (FIT9135 or FIT5135).

Foundation knowledge in computer science or business information systems or information technology and systems fundamentals.
Chief Examiner

Professor David Green

Campus Lecturer

Caulfield

Associate Professor Graeme Johanson
Consultation hours: arrange by email.

Dr Erik Nyberg
Consultation hours: arrange by email.

Malaysia

Dr Anuja Dharmaratne
Consultation hours: arrange by email.

Tutors

Caulfield

Dr Hamid Pousti
Consultation hours: arrange by email.

Dr Noriako Sato
Consultation hours: arrange by email.

Your feedback to Us

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through the Student Evaluation of Teaching and Units (SETU) survey. The University’s student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash’s educational strategy, see:

www.monash.edu.au/about/monash-directions/ and on student evaluations, see:
www.policy.monash.edu/policy-bank/academic/education/quality/student-evaluation-policy.html
Previous Student Evaluations of this Unit

Student feedback highlighted the need for topics that are most appropriate to their area of study. To help achieve this, the unit has been restructured as a series of modules. By offering elective modules, the schedule allows students to choose between alternatives and pick topics of greatest relevance.

To balance workloads, the marking proportions have been adjusted, and the schedule of assignments has been arranged to avoid conflicts with requirements of the Honours thesis. Past students find that the most rewarding aspects of the unit are learning about critical thinking and creative thinking and gaining practical experience on real research projects.

If you wish to view how previous students rated this unit, please go to https://emuapps.monash.edu.au/unitevaluations/index.jsp
Academic Overview

Learning Outcomes

At the completion of this unit, students should be able to:

- identify and explain major research philosophies and paradigms;
- design rigorous and ethical Masters-level research projects and develop project proposals;
- evaluate and select research methods and techniques of data collection and analysis appropriate to particular research designs, projects and disciplines;
- conduct ethical research;
- communicate research findings in written and oral form in research and industry settings;
- critically review research literature, research design and reported findings.

Teaching Approach

Workshops

This teaching and learning approach provides facilitated learning, practical exploration and peer learning. Each module will include lecture and lab-based exercises, where students can explore set problems individually or in teams. Weekly assessment requires reflection on the lecture module and workshop.

Assessment Summary

In-semester assessment: 100%

Academic Integrity - Please see resources and tutorials at
http://www.monash.edu/library/skills/resources/tutorials/academic-integrity/

Assessment Tasks

Participation

Full participation in the tutorials and labs is expected and will be formally assessed via Assignment 1, in which students submit a portfolio of their practical work.

Working in groups is encouraged, both during practical classes, and in the project assignment. The aim is both to facilitate learning and to expose students to team research, which is a common feature of most modern research. When working in groups, each member is expected to participate fully and contribute to the work of the group. As part of the assessment, each student will be required to name and acknowledge their collaborators and submit a statement about group management and members' individual contribution.

• Assessment task 1

Title: Assignment 1 - Portfolio of practical work
Description: This assessment relates to Learning Outcomes 1,3,4,5.

This assignment consists of practical work submitted by students at the end of each workshop. Students will carry out detailed exercises based on the topic of each workshop.

Weighting: 30%

Criteria for assessment:
In most workshops, the assessment will consist of lab exercises and other activities undertaken during class. Some workshops will be individual exercises; others will involve group exercises, with a single submission for the team. Work will be assessed either during class or when written work is submitted at the end of the workshop. Most of the tasks in this assignment will be assessed on the student's ability to correctly perform the tasks, and interpret the findings.

Due date: Weekly until week 12. Work from each module to be submitted by 5pm Friday of the week in which the module runs.

• Assessment task 2

Title: Assignment 2 - Critical analysis of published material
Description:
Assessment Requirements

This assessment relates to Learning Outcomes 2,3,5,6.

In this assignment the students will provide a critical analysis of the research objectives and methods for information technology research, based on published material.

**Weighting:**

30%

**Criteria for assessment:**

The assignment will be assessed by:

- clarity and logic of the structure,
- level of critical analysis,
- referencing,
- standard of English expression, and
- evidence of independent thought and ideas.

**Due date:**

Week 7, Friday 5pm

**Assessment task 3**

**Title:**

Assignment 3 - Mini-research project

**Description:**

This assessment relates to Learning Outcomes 2,3,4,5.

This is a mini-project task, which can be performed by a small group of students.

The outcome includes presentation in week 12 about your mini-project (10%) and a research paper based on your mini-project (20%).

**Weighting:**

40%

**Criteria for assessment:**

The assignment will be assessed by:

- clarity and logic of the structure,
- level of critical analysis,
- referencing,
- standard of English expression,
- and quality of evidence, interpretation and conclusions.

**Due date:**

Presentation in Week 12, Project due Week 14, Friday 5pm

**Learning resources**

**Reading list**

See the Library list on Moodle.

Lists of additional readings will be provided for each lecture.

Anon, Library guide - Information Technology. Available at: http://guides.lib.monash.edu/information-technology.

Assessment Requirements

Monash Library Unit Reading List (if applicable to the unit)
http://readinglists.lib.monash.edu/index.html

**Feedback to you**

Types of feedback you can expect to receive in this unit are:

- Informal feedback on progress in labs/tutes
- Graded assignments with comments
- Solutions to tutes, labs and assignments
- Other: peer-assessment for tutorial contribution

**Extensions and penalties**

Submission must be made by the due date otherwise penalties will be enforced.

You must negotiate any extensions formally with your campus unit leader via the in-semester special consideration process: http://www.monash.edu.au/exams/special-consideration.html

**Returning assignments**

Students can expect assignments to be returned within two weeks of the submission date or after receipt, whichever is later.

**Referencing requirements**

All assignments should use APA style for referencing.
Assignment submission

It is a University requirement (http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-academic-integrity-managing-plagiarism-collusion-procedures.html) for students to submit an assignment coversheet for each assessment item. Faculty Assignment coversheets can be found at http://www.infotech.monash.edu.au/resources/student/forms/. Please check with your Lecturer on the submission method for your assignment coversheet (e.g. attach a file to the online assignment submission, hand-in a hard copy, or use an electronic submission). Please note that it is your responsibility to retain copies of your assessments.

Online submission

Electronic Submission is required for this unit. Please submit your work via the MOODLE site for this unit, which you can access via links in the my.monash portal. Standard assignment cover sheet has to be signed and submitted with each written assignment to confirm the proper acknowledgement of the resources used in the text.

Required Resources

Please check with your lecturer before purchasing any Required Resources. Limited copies of prescribed texts are available for you to borrow in the library, and prescribed software is available in student labs.

Students may be required to use Web browsers, text processing, spread sheets and slide presentation packages to complete their assignments. These are available in University computer labs.
Other Information

Policies

Monash has educational policies, procedures and guidelines, which are designed to ensure that staff and students are aware of the University’s academic standards, and to provide advice on how they might uphold them. You can find Monash’s Education Policies at: www.policy.monash.edu.au/policy-bank/academic/education/index.html

Faculty resources and policies

Important student resources including Faculty policies are located at http://intranet.monash.edu.au/infotech/resources/students/

Graduate Attributes Policy

http://www.policy.monash.edu/policy-bank/academic/education/management/monash-graduate-attributes-policy.html

Student Charter

Student services

The University provides many different kinds of support services for you. Contact your tutor if you need advice and see the range of services available at http://www.monash.edu.au/students. For Malaysia see http://www.monash.edu.my/Student-services, and for South Africa see http://www.monash.ac.za/current/.

Monash University Library

The Monash University Library provides a range of services, resources and programs that enable you to save time and be more effective in your learning and research. Go to www.lib.monash.edu.au or the library tab in my.monash portal for more information. At Malaysia, visit the Library and Learning Commons at http://www.lib.monash.edu.my/. At South Africa visit http://www.lib.monash.ac.za/.

Disability Liaison Unit

Students who have a disability or medical condition are welcome to contact the Disability Liaison Unit to discuss academic support services. Disability Liaison Officers (DLOs) visit all Victorian campuses on a regular basis.

- Website: http://www.monash.edu/equity-diversity/disability/index.html
- Telephone: 03 9905 5704 to book an appointment with a DLO; or contact the Student Advisor, Student Community Services at 03 55146018 at Malaysia
- Email: dlu@monash.edu
- Drop In: Equity and Diversity Centre, Level 1, Building 55, Clayton Campus, or Student Community Services Department, Level 2, Building 2, Monash University, Malaysia Campus
