FIT5166 Information retrieval systems - Semester 2, 2015

This unit presents students with the theory and practice underlying computerised information retrieval. Topics covered include: history and context of information retrieval systems, retrieval models, Boolean, vector space and probabilistic, evaluation strategies, test collections, web search engines, indexing, content-based multimedia retrieval and relevance feedback.

Mode of Delivery

Caulfield (Day)

Workload Requirements

Minimum total expected workload equals 12 hours per week comprising:

(a.) Contact hours for on-campus students:

- Two hours of lectures
- One 2-hour laboratory

(b.) Additional requirements (all students):

- A minimum of 8 hours independent study per week for completing lab and project work, private study and revision.

See also Unit timetable information

Additional workload requirements

A Java Programming self-test (not marked) to ensure that students are aware of what they need to brush up on for this unit has been added for Week 1.

Unit Relationships

Prerequisites

(FIT9131 or FIT5131 or FIT9017) and (FIT9132 or FIT5132 or FIT9003 or FIT9019)) or equivalent

Chief Examiner

Dr Grace Rumantir

Campus Lecturer
Your feedback to Us

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through the Student Evaluation of Teaching and Units (SETU) survey. The University’s student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash’s educational strategy, see:

www.monash.edu.au/about/monash-directions/ and on student evaluations, see:
www.policy.monash.edu/policy-bank/academic/education/quality/student-evaluation-policy.html

Previous Student Evaluations of this Unit

Based on previous student feedback this unit is well structured and no substantial changes have been made for this semester.

If you wish to view how previous students rated this unit, please go to
Academic Overview

Learning Outcomes

At the completion of this unit, students should be able to:

1. analyse critically the context and application of information retrieval systems;
2. compare the different models of information retrieval and their comparative advantages and disadvantages;
3. apply objective and subjective evaluation strategies in information retrieval systems;
4. address the issues and challenges of managing very large collections of heterogeneous data for information retrieval;
5. research how web search engines and search algorithms are constructed, utilised and deployed;
6. do indexing for different media;
7. implement information retrieval systems for the retrieval of audio-visual information;
8. reflect on the theoretical and practical underpinnings of relevance feedback in information retrieval systems.
# Unit Schedule

<table>

*Unit Schedule details will be maintained and communicated to you via your learning system.

## Teaching Approach

### Lecture and tutorials or problem classes

This teaching and learning approach helps students to initially encounter information at lectures, discuss and explore the information during tutorials, and practice in a hands-on lab environment.
**Assessment Summary**

Examination (2 hours): 50%; In-semester assessment: 50%

Assessment Requirements

Assessment Policy

Faculty Policy - Unit Assessment Hurdles

Academic Integrity - Please see resources and tutorials at
http://www.monash.edu/library/skills/resources/tutorials/academic-integrity/

Assessment Tasks

Participation

• Assessment task 1

  Title: Unit Test
  Description: Learning Outcomes: 1, 2, 3, 5, 6, 8

  Closed-book unit test to be conducted in the lecture time slot in Week 8.
  Weighting: 20%
  Criteria for assessment: Correct answers to questions, and quality of solutions to problems, which demonstrates understanding of the learning materials. Further detail of the format and coverage of the unit test will be made available on Moodle.
  Due date: Unit Test during Week 8 lecture (Tuesday 15 September 2015)
  Remarks: The unit test will be conducted during the Week 8 lecture time slot. Week 8 tutorials will still run as per normal.

• Assessment task 2

  Title: Assignment: Information Retrieval System Implementation
  Description: Learning Outcomes: 4, 6, 7, 8

  Implement a vector-space based information indexing and retrieval system. The system must be written in Java. More detailed specifications will be provided in Week 5.
  Weighting: 20%
  Criteria for assessment: The degree to which the assignment implementation meets the requires specifications. Further assessment criteria and marking sheet will be made available on the unit Moodle site. The assignment has 2 stages: Stage 1: Write up of problem definition and the plan on how to program will be implemented and tested (non assessable). Stage 2: Submission (20%)
  Due date:
Assignment: Stage 1 due start of Week 9 lecture (Tuesday 22 September 2015).  
Assignment: Stage 2 due start of Week 11 lecture (Tuesday 13 October 2015)

Remarks:  
Both stages of the assignment are to be submitted at the start of the lecture of the week they are due. Penalty for late submission applies.

• Assessment task 3

Title:  
Weekly Quizzes

Description:  
Learning Outcomes: 1, 2, 3, 4, 5, 6, 7, 8

Starting from Week 2, there will be 9 weekly quizzes of 10 Multiple Choice Questions each on Moodle.

Weighting:  
5%

Criteria for assessment:  
Correct answer to each question in each quiz. There is no penalty mark for wrong answer.

Due date:  
From Week 2 onwards, each weekly quiz will be open on Wednesday at 6pm and will be closed on Monday the following week at 11.55pm

• Assessment task 4

Title:  
Clicker Test - Weekly Unit Preparation

Description:  
Learning Outcomes: 1, 2, 3, 4, 5, 6, 7, 8

Students will be asked to read from a reading list for each week and there will be Multiple Choice Questions during the lecture that students will submit the answers to using their clickers. Further information on this assessment task will be given in Week 1 lecture.

Weighting:  
5%

Criteria for assessment:  
Submission of each answer is to be done via a clicker registered to each student during the lecture timeslot. So, this means students will need to attend the weekly lecture to submit their answers.

Due date:  
From Week 2 onwards, during the weekly lecture timeslot

Examinations

• Examination 1

Weighting:  
50%

Length:  
2 hours

Type (open/closed book):  
Closed book
Electronic devices allowed in the exam:
Scientific Calculators

Learning resources

Monash Library Unit Reading List (if applicable to the unit)
http://readinglists.lib.monash.edu/index.html

Feedback to you

Types of feedback you can expect to receive in this unit are:

- Informal feedback on progress in labs/tutes
- Graded assignments with comments
- Test results and feedback
- Quiz results

Extensions and penalties

Submission must be made by the due date otherwise penalties will be enforced.

You must negotiate any extensions formally with your campus unit leader via the in-semester special consideration process: http://www.monash.edu.au/exams/special-consideration.html

Returning assignments

Students can expect assignments to be returned within two weeks of the submission date or after receipt, whichever is later.

Referencing requirements

Referencing should follow the IEEE style.

Assignment submission

It is a University requirement (http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-academic-integrity-managing-plagiarism-collusion-procedures.html) for students to submit an assignment coversheet for each assessment item. Faculty Assignment coversheets can be found at http://www.infotech.monash.edu.au/resources/student/forms/. Please check with your Lecturer on the submission method for your assignment coversheet (e.g. attach a file to the online assignment submission, hand-in a hard copy, or use an electronic submission). Please note that it is your responsibility to retain copies of your assessments.

Online submission

If Electronic Submission has been approved for your unit, please submit your work via the learning system for this unit, which you can access via links in the my.monash portal.
Assessment Requirements

Technological Requirements

From Week 2 onwards, students are to bring a registered clicker to the lecture.

Recommended Resources

Recommended reading will be provided during the lectures as appropriate.
Other Information

Policies

Monash has educational policies, procedures and guidelines, which are designed to ensure that staff and students are aware of the University’s academic standards, and to provide advice on how they might uphold them. You can find Monash’s Education Policies at: www.policy.monash.edu.au/policy-bank/academic/education/index.html

Faculty resources and policies

Important student resources including Faculty policies are located at http://intranet.monash.edu.au/infotech/resources/students/

Graduate Attributes Policy

http://www.policy.monash.edu/policy-bank/academic/education/management/monash-graduate-attributes-policy.html

Student Charter

Student services

The University provides many different kinds of support services for you. Contact your tutor if you need advice and see the range of services available at http://www.monash.edu.au/students. For Malaysia see http://www.monash.edu.my/Student-services, and for South Africa see http://www.monash.ac.za/current/.

Monash University Library

The Monash University Library provides a range of services, resources and programs that enable you to save time and be more effective in your learning and research. Go to www.lib.monash.edu.au or the library tab in my.monash portal for more information. At Malaysia, visit the Library and Learning Commons at http://www.lib.monash.edu.my/. At South Africa visit http://www.lib.monash.ac.za/.

Disability Liaison Unit

Students who have a disability or medical condition are welcome to contact the Disability Liaison Unit to discuss academic support services. Disability Liaison Officers (DLOs) visit all Victorian campuses on a regular basis.

- Website: http://www.monash.edu/equity-diversity/disability/index.html
- Telephone: 03 9905 5704 to book an appointment with a DLO; or contact the Student Advisor, Student Community Services at 03 55146018 at Malaysia
- Email: dlu@monash.edu
- Drop In: Equity and Diversity Centre, Level 1, Building 55, Clayton Campus, or Student Community Services Department, Level 2, Building 2, Monash University, Malaysia Campus
