FIT3063 Human-computer interaction - Semester 1, 2014

This unit provides a detailed understanding of the underpinning theories, principles and practices of interface design for computer-based systems. It examines issues in the design of system interfaces from a number of perspectives: user, programmer, designer. It explores the application of the relevant theories in practice. The unit will cover topics such as methods and tools for developing effective user interfaces, evaluation methods such as the conduct of usability and heuristic evaluations, design of appropriate interface elements including the design of menus and other interaction styles. The unit will also focus on designing for a diverse range of users and environments.

Mode of Delivery

Clayton (Day)

Workload Requirements

Minimum total expected workload equals 12 hours per week comprising:

(a.) Contact hours for on-campus students:

• Two hours of lectures
• One 2-hour tutorial

(b.) Additional requirements (all students):

• A minimum of 2-3 hours of personal study per one hour of contact time in order to satisfy the reading and assignment expectations.

Unit Relationships

Prohibitions

CSE3030, FIT2016, FIT3033, GCO3814, IMS2403, IMS3470, MMS2403

Prerequisites

One of FIT2001, FIT2027, IMS2805, CSE2200 or equivalent

Chief Examiner

Associate Professor Judithe Sheard

Campus Lecturer
Clayton

Dr Marc Cheong

Consultation hours: 12 noon on Tuesday before lecture

Tutors

Clayton

Ms Pamela Spink

Your feedback to Us

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through the Student Evaluation of Teaching and Units (SETU) survey. The University’s student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash’s educational strategy, see:

www.monash.edu.au/about/monash-directions/ and on student evaluations, see:
www.policy.monash.edu/policy-bank/academic/education/quality/student-evaluation-policy.html

Previous Student Evaluations of this Unit

Student feedback informed improvements to this unit including:

- reverting to the 'design assignment' model from prior semesters
- using more up-to-date software for prototyping (i.e. the Pencil open-source project), to slowly phase out the older MockupScreens system.
- tutorial activities and online forum discussions contribute to part of the assessment

If you wish to view how previous students rated this unit, please go to
Academic Overview

Learning Outcomes

At the completion of this unit students will have:

- A knowledge and understanding of:
  - the underpinning theories relevant to HCI;
  - the principles and practices of HCI in designing user interfaces;
  - the importance and role of usability and evaluation in systems design;
  - the issues relating to user diversity, different types of systems, interaction styles, devices and environments.

Developed attitudes that enable them to:

- appreciate the development of systems from a user perspective;
- differentiate between good HCI practice in systems development from other development practices;
- formulate attitudes which enable them to interact effectively with users;
- empathise with all users particularly those with specific needs.

Gained practical skills to:

- recognise the principles of HCI design required in systems development;
- gather user requirements effectively;
- design an effective user interface;
- conduct appropriate evaluation of systems from a HCI perspective and interpret the outcome.

Demonstrated the communication skills necessary to:

- work in teams to complete assessment tasks;
- empathise with users particularly those with some form of disability.
## Unit Schedule

<table>
<thead>
<tr>
<th>Week</th>
<th>Activities</th>
<th>Assessment</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>No formal assessment or activities are undertaken in week 0</td>
<td></td>
</tr>
<tr>
<td>1</td>
<td>Unit overview. Introduction to HCI, interfaces, usability and user-centred design. Human factors.</td>
<td>Note: Tutorials commence in Week 1. Assessment Task 1: Discussion Forums: five forums each approx 2 weeks duration, throughout semester (deadlines will be announced at least two weeks in advance).</td>
</tr>
<tr>
<td>2</td>
<td>Evolution of the interface, understanding the design space, conceptual models, mental models, metaphors, icons.</td>
<td></td>
</tr>
<tr>
<td>3</td>
<td>Theoretical foundations of HCI: theories, models, frameworks and principles.</td>
<td></td>

Assessment Requirements

Assessment Policy

Faculty Policy - Unit Assessment Hurdles

Academic Integrity - Please see resources and tutorials at
http://www.monash.edu/library/skills/resources/tutorials/academic-integrity/

Assessment Tasks

Participation

• Assessment task 1
  
  Title: Discussion Forums (Online and Tutorial-based)
  
  Description: Students are required to participate throughout the semester in a total of five discussion forums, that will consist of:

  ♦ online forums available through the unit’s Moodle site, and
  ♦ panel-style discussion during tutorials.

  Weighting: 15%

  Criteria for assessment: Criteria for assessment will be based on:

   ♦ relevance of contributions and
   ♦ evidence of wider reading and
   ♦ level of critical thinking and quality of contribution
   ♦ (and in group-based fora) contribution to discussions

  Further details will be made available in the task specification.

  Due date: Five forums throughout the semester (online and group-based conducted within a tutorial setting).

  Remarks: Each forum’s submission deadline and/or participation details will be announced at least two weeks in advance.

• Assessment task 2
  
  Title: Design Assignment (four stages)

  Description: Students will be required to form groups to design and develop a low-level of an application (stage I); a high-level prototype of this application (stage II) including a presentation (stage III); and then independently evaluate another prototype using heuristics (stage IV).
Assessment Requirements

- 5% for the design of a low-level prototype (Stage I).
- 20% (15% + 5%) - 15% for the design of a high-level prototype and report on the process (Stage II) + 5% for the presentation of the prototype in the tutorials in Weeks 11 and 12 (Stage III).
- 10% for an independent Heuristic Evaluation of another group's prototype (Stage IV).

**Weighting:**
35%

**Criteria for assessment:**
In this assignment students will demonstrate their knowledge, skills and understanding of the principles and theories covered through the semester.

Contributions by individual group members to the overall group submission will be recorded by each group member and will be assessed by the markers in determining the grade awarded to each member of a group. Assessment criteria will be made available in the specifications sheet.

**Due date:**
Stage I due in Week 7; Stage II due in Week 10 [also, Stage III presentations in Weeks 11 and 12]; Stage IV due in Week 12.

**Remarks:**
Groups will be finalised by Week 5 of semester and all group members must belong to the same tutorial. Forming groups across tutorials will NOT be allowed due to logistical constraints.

**Examinations**

- **Examination 1**

  **Weighting:**
  50%

  **Length:**
  3 hours

  **Type (open/closed book):**
  Closed book

  **Electronic devices allowed in the exam:**
  None

**Learning resources**

**Reading list**

Monash Library Unit Reading List (if applicable to the unit)
http://readinglists.lib.monash.edu/index.html

Faculty of Information Technology Style Guide
Feedback to you

Examination/other end-of-semester assessment feedback may take the form of feedback classes, provision of sample answers or other group feedback after official results have been published. Please check with your lecturer on the feedback provided and take advantage of this prior to requesting individual consultations with staff. If your unit has an examination, you may request to view your examination script booklet, see http://intranet.monash.edu.au/infotech/resources/students/procedures/request-to-view-exam-scripts.html

Types of feedback you can expect to receive in this unit are:

- Informal feedback on progress in labs/tutes
- Graded assignments with comments
- Other: Informal feedback including sample answers from peers in tutes.

Extensions and penalties

Submission must be made by the due date otherwise penalties will be enforced.

You must negotiate any extensions formally with your campus unit leader via the in-semester special consideration process: http://www.monash.edu.au/exams/special-consideration.html

Returning assignments

Students can expect assignments to be returned within two weeks of the submission date or after receipt, whichever is later.

Assignment submission

It is a University requirement (http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-academic-integrity-managing-plagiarism-collusion-procedures.html) for students to submit an assignment coversheet for each assessment item. Faculty Assignment coversheets can be found at http://www.infotech.monash.edu.au/resources/student/forms/. Please check with your Lecturer on the submission method for your assignment coversheet (e.g. attach a file to the online assignment submission, hand-in a hard copy, or use an online quiz). Please note that it is your responsibility to retain copies of your assessments.

Online submission

If Electronic Submission has been approved for your unit, please submit your work via the Moodle learning system for this unit, which you can access via links in the my.monash portal.

Required Resources

Please check with your lecturer before purchasing any Required Resources. Limited copies of prescribed texts are available for you to borrow in the library, and prescribed software is available in student labs.

For the design of GUI mockups: a choice between:

- Pencil Project (open-source, more features, recommended), or
Assessment Requirements

• MockupScreens (a license is provided strictly for your personal course-related use)

Prescribed text(s)

Limited copies of prescribed texts are available for you to borrow in the library.

Technological Requirements

Students must regularly check Moodle 2.0 for announcements.

Moodle is also used to disseminate courseware for this subject and for assessment submission.

It is strongly recommended that students bring a laptop, and/or tablet to lectures and tutorials in order to take part in interactive discussions/activities.

(Please refer to the Required Resources section for a list of software needed for this course.)
Other Information

Policies

Monash has educational policies, procedures and guidelines, which are designed to ensure that staff and students are aware of the University’s academic standards, and to provide advice on how they might uphold them. You can find Monash’s Education Policies at: www.policy.monash.edu.au/policy-bank/academic/education/index.html

Key educational policies include:

- Student Academic Integrity Policy and Student Academic Integrity: Managing Plagiarism and Collusion Procedures; http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-academic-integrity-policy.html
- Special Consideration; http://www.policy.monash.edu/policy-bank/academic/education/assessment/special-consideration-policy.html
- Grading Scale; http://www.policy.monash.edu/policy-bank/academic/education/assessment/grading-scale-policy.html
- Discipline: Student Policy; http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-discipline-policy.html
- Academic Calendar and Semesters; http://www.monash.edu.au/students/dates/
- Orientation and Transition; http://intranet.monash.edu.au/infotech/resources/students/orientation/

Faculty resources and policies

Important student resources including Faculty policies are located at http://intranet.monash.edu.au/infotech/resources/students/

Graduate Attributes Policy

http://www.policy.monash.edu/policy-bank/academic/education/management/monash-graduate-attributes-policy.html

Student Charter

Student services

The University provides many different kinds of support services for you. Contact your tutor if you need advice and see the range of services available at http://www.monash.edu.au/students. For Malaysia see http://www.monash.edu.my/Student-services, and for South Africa see http://www.monash.ac.za/current/.
Monash University Library

The Monash University Library provides a range of services, resources and programs that enable you to save time and be more effective in your learning and research. Go to www.lib.monash.edu.au or the library tab in my.monash portal for more information. At Malaysia, visit the Library and Learning Commons at http://www.lib.monash.edu.my/. At South Africa visit http://www.lib.monash.ac.za/.

Disability Liaison Unit

Students who have a disability or medical condition are welcome to contact the Disability Liaison Unit to discuss academic support services. Disability Liaison Officers (DLOs) visit all Victorian campuses on a regular basis.

- Website: http://www.monash.edu/equity-diversity/disability/index.html
- Telephone: 03 9905 5704 to book an appointment with a DLO; or contact the Student Advisor, Student Community Services at 03 55146018 at Malaysia
- Email: dlu@monash.edu
- Drop In: Equity and Diversity Centre, Level 1, Building 55, Clayton Campus, or Student Community Services Department, Level 2, Building 2, Monash University, Malaysia Campus
